**Subject:** waste permit

Dear John Kieling,

LANL submitted a request to you, (I believe) at the Environment Department as a Class 2 modification of the hazardous waste permit, which provides for a 60-day public comment period, but no public hearing.

This is a major permit modification and meets the Class 3 standards, which provides for more public participation, including the opportunity to request a public hearing.

Please decline their request as a Class 2.

Thank you for listing to regular NM citizens.

Sincerely,

Giselle Piburn
