**Subject:** LANL Permit

Mr.Kieling:

I want to oppose the Environment Department's decision to ban open burning at the Lab. I've lived in this town for fifteen years and have never been bothered by the burns, in fact, haven't even known about them until now. I trust the lab scientists to worry about environmental safety. It seems foolish to stop a procedure that enables the lab to conduct research vital to our national security. I hope the department will rethink this decision.
