Subject: stop allowing waste to be released in the air

Mr Kieling.

I live down wind of Los Alamos and have Leukemia from breathing the TOXIC air from the 2000 fires.

It can only get worse with so much waste sent into the air.

Please think how you might feel if it were your family breathing this poluted air.
please do everything you can to stop this release of POISON air.

May God guide your desicion
ondrea levine

ps there isn't even a class action law suit to help those from the fires get medical assistance.

this is sad for our beautifull state
