Public Notice

Peabody Natural Resources Company (PNRC) invites public comment on a draft Use Attainability Analysis (UAA) and proposed changes to the surface water quality standards for San Isidro Arroyo and tributaries, McKinley County, New Mexico.

The New Mexico Environment Department (NMED) establishes designated uses and surface water quality standards for all waters of the state. The waters within the San Isidro Arroyo watershed that are unclassified have designated uses of livestock watering, wildlife habitat, primary contact, and marginal warm water aquatic life. The waters within the San Isidro Arroyo watershed that were classified as ephemeral by NMED in 2013 have designated uses of livestock watering, wildlife habitat, secondary contact, and limited aquatic life.

A UAA is a scientific study conducted for the purpose of assessing the factors affecting the attainment of a designated use. PNRC conducted a UAA on waters within the San Isidro Arroyo watershed that relied on methods outlined in the NMED Hydrology Protocol for identifying ephemeral and intermittent waters. Based on the findings of the UAA, PNRC is proposing to classify the San Isidro Arroyo and tributaries as ephemeral in the State Water Quality Standards for Instream and Instream Surface Waters (NMAC 20.6.4). The Draft UAA and the proposed water quality standards amendment are available for public inspection at the McKinley County Courthouse, County Clerk's Office, 201 W. Hill, Gallup New Mexico, and the Mother Whiteside Public Library, 1101 N First St., Grants, New Mexico.

The comment period for this proposal begins March 13, 2019 and ends April 12, 2019. Comments for inclusion in the public record must be submitted in writing to Chad Gaines, P.O. Box 787, Grants, NM, 87020, or by e-mail to cgaines@peabodyenergy.com.

PNRC will also hold a public meeting to answer questions on the Draft UAA and proposed water quality standards amendments at the Mother Whiteside Public Library, 1101 N First St., Grant, New Mexico. The public meeting will be held March 26, from 1:00 - 3:00 PM.

NOTICE
 The Navajo Nation is pleased to announce that it has entered into a new contract with the Navajo Nation Health Care Authority (NNAHCA) for the provision of health care services to its members. This contract is a significant milestone in the Nation's efforts to improve the health and well-being of its people. The contract covers a wide range of services, including medical, dental, and vision care, and is expected to result in improved access to care and better health outcomes for all Navajo people.

NOTICE OF THE NAVAJO PREFERENCE IN EMPLOYMENT ACT

Employers must post this notice in a conspicuous place on its premises where notices to employees and job applicants are customarily posted.

This 16 N.M.C. Chapter 7 requires that all employers doing business within the boundaries of the Navajo Nation or engaged in any contract with the Navajo Nation, shall give preference to employees or enrolled members of the Navajo Nation, and submit an affirmative action program.

Navajo Preference in Employment Act ("NPEA") applies to:

- Hiring
- Promotions
- Termination
- Recalls
- Retirement
- Training
- Education

NPEA requires employers doing business within the territorial jurisdiction of the Navajo Nation to:

- Provide applicants with written job descriptions
- Provide training to enhance the skills of Navajo Employees
- Not discharge or discharge Navajo employees without cause and without justification
- Provide a work place free of prejudice, harassment and discrimination
- Pay established Prevailing Wages for construction work
- Provide Navajo Affirmative Action Program for employ Navajo of all job classifications including supervisory and management positions

The OHR requires employers to provide a NPEA statement prior to commencing work on the Navajo Preference, call or write to the Office of Navajo Labor Relations for more information.

If you think your rights have been violated or for other possible violations of the Navajo Preference, call or write to the Office of Navajo Labor Relations for more information.

Notice of Public Comment Period for Peabody Natural Resources Company's Draft Use Attainability Analysis and Proposed Changes to the Surface Water Quality Standards for San Isidro Arroyo and Tributaries, McKinley County, New Mexico

Peabody Natural Resources Company (PNRC) invites public comment on the draft Use Attainability Analysis (UAA) and proposed changes to the surface water quality standards for San Isidro Arroyo and tributaries, McKinley County, New Mexico.

The New Mexico Environment Department (NMED) establishes designated uses and surface water quality standards for all waters of the state. The waters within the San Isidro Arroyo watershed that are unclassified have designated uses of livestock watering, wildlife habitat, primary contact, and marginal warm water aquatic life. The waters within the San Isidro Arroyo watershed that were classified as ephemeral by NMED in 2013 have designated uses of livestock watering, wildlife habitat, secondary contact, and limited aquatic life.

A UAA is a scientific study conducted for the purpose of assessing the factors affecting the attainment of a designated use. PNRC conducted a UAA on waters within the San Isidro Arroyo watershed that relied on methods outlined in the NMED *Hydrology Protocol* for identifying ephemeral and intermittent waters. Based on the findings of the UAA, PNRC is proposing to classify the San Isidro Arroyo and tributaries as ephemeral in the State Water Quality Standards for Interstate and Intrastate Surface Waters (NMAC 20.6.4). The Draft UAA and the proposed water quality standards amendment are available for public inspection at the McKinley County Courthouse, County Clerk's Office, 201 W. Hill, Gallup New Mexico; and the Mother Whiteside Public Library, 1101 N First St., Grants, New Mexico.

The comment period for this proposal begins March 13, 2019 and ends April 12, 2019. Comments for inclusion in the public record must be submitted in writing to Chad Gaines, P.O. Box 757, Grants, NM, 87020; or by e-mail to cgaines@peabodyenergy.com.

PNRC will also hold a public meeting to answer questions on the Draft UAA and proposed water quality standards amendments at the Mother Whiteside Public Library, 1101 N First St., Grant, New Mexico. The public meeting will be held March 26, from 1:00 – 3:00 PM.

A UAA is a scientific study conducted for the purpose of assessing the factors affecting the attainment of a designated use. PNRC conducted a UAA on waters within the San Isidro Arroyo watershed that relied on methods outlined in the NMED *Hydrology Protocol* for identifying ephemeral and intermittent waters. Based on the findings of the UAA, PNRC is proposing to classify the San Isidro Arroyo and tributaries as ephemeral in the State Water Quality Standards for Interstate and Intrastate Surface Waters (NMAC 20.6.4). The Draft UAA and the proposed water quality standards amendment are available for public inspection at the McKinley County Courthouse, County Clerk's Office, 201 W. Hill, Gallup New Mexico; and the Mother Whiteside Public Library, 1101 N First St., Grants, New Mexico.

The comment period for this proposal begins March 13, 2019 and ends April 12, 2019. Comments for inclusion in the public record must be submitted in writing to Chad Gaines, P.O. Box 757, Grants, NM, 87020; or by e-mail to cgaines@peabodyenergy.com.

PNRC will also hold a public meeting to answer questions on the Draft UAA and proposed water quality standards amendments at the Mother Whiteside Public Library, 1101 N First St., Grant, New Mexico. The public meeting will be held March 26, from 1:00 – 3:00 PM.

Notice of Public Comment Period for Peabody Natural Resources Company's Draft Use Attainability Analysis and Proposed Changes to the Surface Water Quality Standards for San Isidro Arroyo and Tributaries, McKinley County, New Mexico

Peabody Natural Resources Company (PNRC) invites public comment on the draft Use Attainability Analysis (UAA) and proposed changes to the surface water quality standards for San Isidro Arroyo and tributaries, McKinley County, New Mexico.

The New Mexico Environment Department (NMED) establishes designated uses and surface water quality standards for all waters of the state. The waters within the San Isidro Arroyo watershed that are unclassified have designated uses of livestock watering, wildlife habitat, primary contact, and marginal warm water aquatic life. The waters within the San Isidro Arroyo watershed that were classified as ephemeral by NMED in 2013 have designated uses of livestock watering, wildlife habitat, secondary contact, and limited aquatic life.

Purpose of Event UAA public Meeting

Date(s) of Event/Class 03-26-2019

Time (including setup/clean up): From 1Am To 3PM

Mon Tue Wed Thu Fri Sat

Jan Feb Mar Apr May Jun Jul Aug Sept Oct Nov Dec

Which space do you wish to reserve? (see descriptions below) Conference Room

Rooms Available:

- 1. CONFERENCE ROOM:** A traditional conference room with one large table that sits 15 office chairs. Food and drink ARE allowed (see rules below), and the room is equipped with a television/DVD player/sound bar setup.
- 2. READING ROOM/CLASSROOM:** This 20-seat room resembles a traditional library reading room with oak tables and chairs available for use. NO food or drink allowed.
- 3. COURTYARD:** The Courtyard is separate from the Library proper and seats more than 50 individuals comfortably. Expect traffic to and from the Library through this area. Food and drink ARE allowed.

Rules for Use of a Library Facility

Fees:

- Meetings/events lasting between two and four hours require a fee of \$10 and meetings/events lasting more than four hours require a fee of \$25, per day. City entities can use facilities at no charge, but all other rules apply.

Food and Drink:

- Food and drink are allowed in the conference room and courtyard but will need to be discussed and cleared with Library Director or Assistant Librarian. The Library does not provide any type of food equipment (coffee machine, etc.) nor any type of food supplies (water, snacks, etc.)

Setup and Clean Up:

- The event organizer is responsible for set-up and general clean-up of the facility. Trash should be thrown in provided receptacles, and if applicable, spills or messes beyond normal use should be dealt with prior to leaving.

Availability:

- Room reservations are taken and approved on a first come, first served basis and MUST BE CONFIRMED by the Library Director or other designated staff **PRIOR** to your meeting/event. Rooms are only available during regular Library hours, 9 a.m. to 6 p.m. Monday through Friday, and Saturday from 9 a.m. to 3:30 p.m.
