Dear Mr. Kieling,

I am writing to express my sincere personal support for the awarding of an open burn permit to Los Alamos National Laboratory. Granting this permit will not harm the environment, and is critical to the Lab's work to protect our soldiers and safeguard our nation. Please do what is right for New Mexico, the Lab, and our nation and grant this permit. You work every day to protect the environment of New Mexico. This is your chance to also protect our uniformed personnel in harms' way.

I appreciate your consideration of my input.

Sincerely,

Philip Hypes
