PUBLIC NOTICE

Groundwater Discharge Permit Applications Submitted to the Department for Review – Input from Community Members Sought in Development of Public Involvement Plans July 15, 2022

Dear Interested Party,

The New Mexico Environment Department (NMED) Ground Water Quality Bureau (GWQB) hereby provides notice pursuant to 20.6.2.3108 NMAC that the following Groundwater Discharge Permit applications have been submitted to NMED for review. Provided the applicant has met applicable requirements, NMED will propose for approval a Discharge Permit containing limitations, monitoring requirements, and other conditions intended to protect groundwater quality for present and potential future use.

NMED will accept comments and statements of interest regarding the application and will create a facility specific mailing list for persons who wish to receive future notices. NMED is developing a Public Involvement Plan (PIP) to provide public participation opportunities and information that may be needed for the community to participate in the permitting process. Your input is sought in the development of the PIP. A Community Member Public Involvement Plan Input Form is available at <https://www.env.nm.gov/community-member-public-involvement-plan-input-form/>. The PIP will be posted online at <https://www.env.nm.gov/public-notices/> and placed at the NMED field office nearest to the proposed permitted activity. To learn more about a Discharge Permit and the permitting process or to be placed on a facility-specific mailing list, please contact the NMED Permit Contact at the telephone number or email address provided or address correspondence to the GWQB, PO Box 5469, Santa Fe, NM 87502-5469.

In the future, NMED will publish a second public notice providing a draft permit and will seek public comment on the draft. You will be able to add the comment period to your calendar simply through our Events Calendar located at <https://www.env.nm.gov/events-calendar/>.

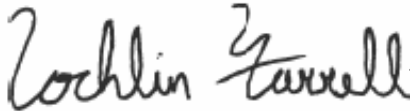

If you are a non-English speaker, do not speak English well, or if you have a disability, you may contact the NMED Permit Contact to request assistance, an interpreter, or an auxiliary aid in order to learn more about a Discharge Permit or the permitting process, or to participate in activities associated with the permitting process. To the extent possible, NMED will arrange for requested interpretation services and accommodations or services for persons with disabilities. Telephone conversation assistance is available through Relay New Mexico at no charge for people who are deaf, hard of hearing, or have difficulty speaking on the phone, by calling 1-800-659-1779; TTY users: 1-800-659-8331; Spanish: 1-800-327-1857. Telephone interpretation assistance for persons that are a non-English speaker or do not speak English well is available at no charge when calling NMED.

Science | Innovation | Collaboration | Compliance

Ground Water Quality Bureau | 1190 Saint Francis Drive, PO Box 5469, Santa Fe, New Mexico 87502-5469
Telephone (505) 827-2900 | www.env.nm.gov/gwqb/

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Parts 5 and 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kathryn Becker, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/general/environmental-justice-in-new-mexico/> to learn how and where to file a complaint of discrimination.

Sincerely,

Lochlin Farrell
Ground Water Quality Bureau

“How can I be of assistance?”

Lochlin is available by telephone during normal business hours at **(505) 660-8061**. Lochlin can help you with questions regarding this public notice or public involvement and can arrange for an interpreter to be on the phone line for the duration of your call at no cost to you.

Enclosure: Community Member Public Involvement Plan Input Form
Groundwater Discharge Permit Applications Submitted for Review

**New Mexico Environment Department
Ground Water Quality Bureau
Community Member Public Involvement Plan Input Form**

Public Notice 1 Published on July 15, 2022

If you would like to provide input to be considered by the Department in the development of a Public Involvement Plan, please fill out this form and send it to the NMED Permit Contact at the email address provided below or send by mail to GWQB, PO Box 5469, Santa Fe, NM 87502-5469. For comments regarding public involvement that are not specific to a particular permit, please send this form to Lochlin Farrell at Lochlin.Farrell@state.nm.us, or mail to Lochlin Farrell, GWQB, PO Box 5469, Santa Fe, NM 87502-5469. This form is available online at <https://www.env.nm.gov/community-member-public-involvement-plan-input-form/>. All written responses received by email or US Mail will become public record. If you have any questions or are having any difficulty completing the form, contact Lochlin Farrell at Lochlin.Farrell@state.nm.us or call between the hours of 8:00 a.m. to 5:00 p.m. Monday through Friday at (505) 660-8061. Lochlin can arrange for an interpreter to be on the line for the duration of your call at no cost to you.

Please write legibly

Your input is regarding Discharge Permit number _____

What circumstances or cultural considerations should NMED be considerate of when planning for public notice or outreach in your community?

Please let us know how the members of your community, including those that do not have internet access, are staying in touch with one another. NMED would use this input to help assure equitable access to information provided to the community by NMED.

Please use the space below if you would like to nominate a local media outlet or community publication to carry notification when a draft permit is available for public comment or a meeting is planned. NMED will consider additional outreach for a permitting action as resources allow.

Please use the space below if you would like to nominate a local business or community space to have a copy of the public involvement plan available for viewing by your community. The business or community space must be accessible by public transportation, where applicable, and be accessible to persons who have a disability. NMED will contact the business or community space to ask if they would be willing to serve in this capacity.

Please use the space below if you have other comments regarding public involvement of your community in the permitting process. Please remember to be specific about your recommendations and how the NMED can address any concerns. NMED will consider additional outreach for a permitting action as resources allow:

For questions or comments regarding this form, please contact Lochlin Farrell at Lochlin.Farrell@state.nm.us or (505) 660-8061.

Discharge Permit: DP-1946, Atex 213 Site Remediation

- County: Bernalillo |Closest City: Albuquerque
- Applicant: NMED-Petroleum Storage Tank Bureau, 121 Tijeras Avenue NE, Suite 1000, Albuquerque, NM 87102.
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: (505) 699-8564.

Notice: DP-1946, Atex 213 Site Remediation: NMED-PSTB proposes the discharge of up to 1,200 gallons per day of remediation solution to injection points to assist cleanup of petroleum contamination in groundwater. Potential contaminants from this type of discharge include inorganic compounds. The facility is located at 3501 Isleta Boulevard, Albuquerque, in Section 12, T09N, R02E, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately nine feet and had a pre-discharge total dissolved solids concentration of 586 milligrams per liter.

Discharge Permit: DP-1947, Barelás Bridge

- County: Bernalillo |Closest City: Albuquerque
- Applicant: NMED-Petroleum Storage Tank Bureau, 121 Tijeras Avenue NE, Suite 1000, Albuquerque, NM 87102.
- NMED Permit Contact: Andrew Romero, Environmental Scientist, AndrewC.Romero@state.nm.us, Telephone: 505-660-8624.

Notice: DP-1947, Barelás Bridge: NMED Petroleum Storage Tank Bureau proposes the discharge of up to 800 gallons per day of remediation solution to injection points to cleanup petroleum contamination in groundwater. Potential contaminants from this type of discharge include inorganic compounds. The facility is located at 800 Bridge Boulevard SW in Albuquerque, Section 30, T10N, R03E, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately 8 feet and had a pre-discharge total dissolved solids concentration of 356 milligrams per liter.

Discharge Permit: DP-61, Mt Taylor Uranium Mine

- County: Cibola |Closest City: San Mateo
- Applicant: Bruce Norquist, Facilities Manager, Rio Grande Resources Corporation, PO Box 1150, Grants, NM 87020.
- NMED Permit Contact: Anne Maurer, Anne.Maurer@state.nm.us, 505-660-8868.

Notice: DP-61, Mt Taylor Uranium Mine: Rio Grande Resources Corporation proposes to renew and modify the Discharge Permit for the discharge of up to 40,000 gallons per day of domestic/industrial wastewater to a treatment and disposal system and expand the disposal cell. Potential contaminants from this type of discharge include total Kjeldahl nitrogen, nitrate-nitrogen, total dissolved solids, chloride, volatile and semi-volatile organic compounds, polynuclear aromatic hydrocarbons, polychlorinated biphenyls, metals and radionuclides. The facility is located approximately ½ miles NE of San Mateo, in Section 24, T13N, R8W, County. Groundwater most likely to be affected is at a depth of approximately 12-33 feet and had an unknown pre-discharge total dissolved solids concentration. The main facilities at the site include Pond 2, Pond 3, Ore Pad, Waste Rock Pile, septic system, South Storm Water Pond, Ore Pad Retention Pond, monitoring wells, extraction wells, and buildings. Mt Taylor Uranium Mine is initiating closure of the facility and will no longer pursue active mining.

Discharge Permit: DP-695, City of Grants Wastewater Treatment Facility

- County: Cibola | Closest City: Grants
- Applicant: City of Grants, Mark Teshima, WWTP Director, 600 W. Santa Fe Ave., Grants, NM 87020.
- NMED Permit Contact: Gerald Knutson, Environmental Scientist, Gerald.Knutson@state.nm.us, Telephone: (505) 660-7189.

Notice: DP-695, City of Grants Wastewater Treatment Facility: City of Grants proposes to renew and modify the Discharge Permit for the discharge of up to 1,500,000 gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 5001 George Hanosh Boulevard, Grants, in Sections 32 and 33, T11N, R09W, Cibola County. Groundwater most likely to be affected is at a depth ranging from 8 to 94 feet and had a pre-discharge total dissolved solids concentration ranging from 448 to 10,000 milligrams per liter.

Discharge Permit: DP-1022, Southern Draw Dairy

- County: Curry | Closest City: Clovis
- Applicant: Ron Schaap, Owner, 1069 Curry Rd 21, Clovis, NM 88101.
- NMED Permit Contact: Sarah Schnell, Geoscientist, Sarah.Schnell@state.nm.us, Telephone: 505-660-8368.

Notice: DP-1022, Southern Draw Dairy: Ron Schaap proposes to renew the Discharge Permit for the discharge of up to 108,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 1069 Curry Rd 21, approximately 10 miles north of Clovis, in Section 19, T04N, R36E, Curry County. Groundwater most likely to be affected is at a depth of approximately 405 feet and had a pre-discharge total dissolved solids concentration of 210 milligrams per liter.

Discharge Permit: DP-671, Biad Chili Ltd. Co.-Mesilla

- County: Doña Ana | Closest City: Las Cruces
- Applicant: Michael Biad, PO Box 66, Mesilla, NM 88046.
- NMED Permit Contact: Jaben Richards, Agriculture Team Leader, Jaben.Richards@state.nm.us, Telephone: 505-660-8376.

Notice: DP-671, Biad Chili Ltd. Co.-Mesilla proposes to renew the Discharge Permit for the discharge of up to 99,000 gallons per day of wastewater from the production area of a chile processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 6060 S. Main Street, approximately 5 miles south of Las Cruces, in Section 9, T24S, R02E, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 37.8 feet and had a pre-discharge total dissolved solids concentration of 500 milligrams per liter.

Discharge Permit: DP-1634, CEHMM Algae Biofuel

- County: Eddy | Closest City: Artesia
- Applicant: Emily Wirth, CEHMM 505, N. Main Street, Carlsbad, NM 88220.
- NMED Permit Contact: Jaben Richards, Agriculture Team Leader, Jaben.Richards@state.nm.us, Telephone: 505-660-8376.

Notice: DP-1634, CEHMM proposes to renew the Discharge Permit for the discharge of up to 1,000,000 gallons per year of nutrient enriched fresh water to a system of synthetically lined algae propagation ponds. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 157 N Lake Road, approximately 6 miles south of Artesia, in Section 16, T18S, R26E, Eddy County. Groundwater most likely to be affected is at a depth of approximately 54 feet and had a pre-discharge total dissolved solids concentration of 2,950 milligrams per liter.

Discharge Permit: DP-1754, Southwest Salt Malaga Facility

- County: Eddy | Closest City: Carlsbad
- Applicant: Southwest Salt Company, LLC, Charles J. Dixon, Managing Partner, P.O. Box 445, Paola, KS 66071.
- NMED Permit Contact: Anne Maurer, Anne.Maurer@state.nm.us, Telephone: 505-660-8878.

Notice: DP-1754, Southwest Salt Malaga Facility: Charles J. Dixon, Managing Partner proposes to renew the Discharge Permit for the discharge of up to 576,000 gallons per day of brine to a series of lined evaporation ponds. Potential contaminants from this type of discharge include chloride, sulfate, and total dissolved solids. The facility is located at 350 Harroun Road, approximately 3 miles NE of Malaga, in Sections 5, 6, and 16, T24S, R29E, Eddy County. Groundwater beneath the site is at a depth of approximately 30 feet and has a total dissolved solids concentration of approximately 12,000 milligrams per liter.

Discharge Permit: DP-1948, NMDOT Artesia Patrol Yard Site Remediation

- County: Eddy | Closest City: Artesia
- Applicant: New Mexico Department of Transportation, General Office, P.O. Box 1149, Santa Fe, NM 87504.
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: 505-699-8564.

Notice: DP-1948, NMDOT Artesia Patrol Yard Site Remediation: NMDOT proposes the discharge of up to 3,300 gallons per day of remediation solution to injection points to assist cleanup of petroleum contamination in groundwater. Potential contaminants from this type of discharge include inorganic compounds. The facility is located at 3101 West Main Street, Artesia, in Section 13, T17S, R25E, Eddy County. Groundwater most likely to be affected is at a depth of approximately 50 to 55 feet and had a pre-discharge total dissolved solids concentration of 896 to 4,160 milligrams per liter.

Discharge Permit: DP-1135, Bos Dairy, LLC -South

- County: Lea | Closest City: Lovington
- Applicant: Isaak Bos, Owner, 303 State Highway 83, Lovington, NM 88260.
- NMED Permit Contact: Sarah Schnell, Geoscientist, Sarah.Schnell@state.nm.us, Telephone: 505-660-8368.

Notice: DP-1135, Bos Dairy, LLC-South: Isaak Bos, proposes to renew the Discharge Permit for the discharge of up to 120,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 303 State Highway 83, approximately 7 miles east of Lovington, in Section 11, T16S, R37E, Lea County. Groundwater most likely to be affected is at a depth of approximately 98 feet and had a pre-discharge total dissolved solids concentration of 500 milligrams per liter.

Discharge Permit: DP-1620, Hobbs Generating Station

- County: Lea | Closest City: Hobbs
- Applicant: Quinto Di Ferdinando, Lea Power Partners, LLC, 98 N. Twombly Lane, Hobbs, NM 88240.
- NMED Permit Contact: Kathleen Murphy, Water Resource Professional, Kathleen.Murphy@state.nm.us, Telephone: 505-660-7567.

Notice: DP-1620, Hobbs Generating Station: Lea Power Partners, LLC proposes to renew the Discharge Permit for the discharge of up to 165,000 gallons per day of industrial wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include total dissolved solids and chloride. The facility is located at 98 N. Twombly Lane, Hobbs, approximately 10 miles northwest of Hobbs, in Sections 24 and 25, T18S, R36E, Lea County. Groundwater most likely to be affected is at a depth of approximately 50 feet and had a pre-discharge total dissolved solids concentration of 340 milligrams per liter.

Discharge Permit: DP-1909, Quail Run Services - Hobbs

- County: Lea | Closest City: Hobbs
- Applicant: Justin Lock, Operations Manager, Quail Run Services, 952 Echo Lane, Houston, TX 77024.
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: (505) 699-8564.

Notice: DP-1909, Quail Run Services - Hobbs: Quail Run Services proposes the Discharge Permit for the discharge of up to 150,000 gallons per day of domestic septage to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds, organic compounds, sulfate, and total dissolved solids. The facility is located at 958 W Pearl Valley Rd, Hobbs, Lea County. Groundwater most likely to be affected is at a depth of approximately 18 feet and had a pre-discharge total dissolved solids concentration of 349 milligrams per liter.

Discharge Permit: DP-82, Village of Tularosa Wastewater Treatment Facility

- County: Otero | Closest City: Tularosa
- Applicant: Village of Tularosa, Honorable Margaret Trujillo, Mayor, 705 St. Francis Dr., Tularosa, NM 88353.
- NMED Permit Contact: Gerald Knutson, Environmental Scientist, Gerald.Knutson@state.nm.us, Telephone: (505) 660-7189.

Notice: DP-82, Village of Tularosa Wastewater Treatment Facility: The Village of Tularosa proposes to renew the Discharge Permit for the discharge of up to 500,000 gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at the intersection of Radio Road and La Riata Road, Tularosa, in Sections 25, 31, and 36, T14S, R09E, Otero County. Groundwater most likely to be affected is at a depth of approximately 100 feet and had a pre-discharge total dissolved solids concentration ranging from 2,456 to 3,264 milligrams per liter.

Discharge Permit: DP-1769, NMSU - Agricultural Science Center at Tucumcari

- County: Quay | Closest City: Tucumcari
- Applicant: Robert Herrera, New Mexico State University (NMSU), Rex E. Kirksey, Agricultural Science Center at Tucumcari, 6502 Quay Road, AM 5, Tucumcari, NM 88401.
- NMED Permit Contact: Kathleen Murphy, Water Resource Professional, Kathleen.Murphy@state.nm.us, 505-660-7567.

Notice: DP-1769, NMSU - Agricultural Science Center at Tucumcari: New Mexico State University proposes to renew and modify the Discharge Permit for the discharge of up to 720,000 gallons per day of reclaimed domestic wastewater to a reuse area, and 1,000 gallons per day of domestic wastewater to a septic tank/leachfield treatment and disposal system. Potential contaminants from this type of discharge include total dissolved solids and nitrate. The facility is located at 6502 Quay Road, AM.5, approximately 3 miles northeast of Tucumcari, in Sections 6 and 7, T11N, R31E, and Section 1, T11N, R30E, Quay County. Groundwater most likely to be affected is at a depth of approximately 16 feet and had a pre-discharge total dissolved solids concentration of 490 milligrams per liter.

Discharge Permit: DP-1114, Town of Abiquiu Wastewater Treatment Plant

- County: Rio Arriba | Closest City: Abiquiu
- Applicant: Village of Abiquiu, Delvin Garcia, President, P.O. Box 133, Abiquiu, NM 87510
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: 505-699-8564.

Notice: DP-1114, Town of Abiquiu Wastewater Treatment Plant: Village of Abiquiu proposes to renew the Discharge Permit for the discharge of up to 40,000 gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located off US Highway 84, behind Bode's General Store, Abiquiu, Rio Arriba County. Groundwater most likely to be affected is at a depth of approximately 20 feet and had a pre-discharge total dissolved solids concentration of 916 milligrams per liter.

Discharge Permit: DP-1944, El Vado Dam Seepage Modification

- County: Rio Arriba | Closest City: Tierra Amarilla
- Applicant: U.S. Bureau of Reclamation, William Russom, Project Manager, 193 Pinon Dr., Chama, NM, 87575.
- NMED Permit Contact: Gerald Knutson, Environmental Scientist, Gerald.Knutson@state.nm.us, Telephone: (505) 660-7189.

Notice: DP-1944, El Vado Dam Seepage Modification: U.S. Bureau of Reclamation proposes to discharge up to 8,250 gallons per day of industrial wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include TDS and sulfate. The facility is located at El Vado Dam, State Road 112, approximately 12.3 miles southwest of Tierra Amarilla, in the Tierra Amarilla Land Grant, T28N, R02E, Rio Arriba County. Groundwater most likely to be affected is at a depth of approximately 45 feet and had a pre-discharge total dissolved solids concentration of 1,020 milligrams per liter.

Discharge Permit: DP-1945, Conoco Service Station

- County: Rio Arriba | Closest City: Chama
- Applicant: NMED-Petroleum Storage Tank Bureau, 121 Tijeras Avenue NE, Suite 1000, Albuquerque, NM 87102.
- NMED Permit Contact: Andrew Romero, Environmental Scientist, AndrewC.Romero@state.nm.us, Telephone: 505-660-8624.

Notice: DP-1945, Conoco Service Station: NMED Petroleum Storage Tank Bureau proposes the discharge of up to 400 pounds of ORC-A and 120 gallons per day of remediation solution to injection points to cleanup petroleum contamination in groundwater. Potential contaminants from this type of discharge include inorganic compounds. The facility is located at 3837 Highway 64 in Chama, Section 00, T32N, R02E, Rio Arriba County. Groundwater most likely to be affected is at a depth of approximately 6 feet and had a pre-discharge total dissolved solids concentration of 473 to 754 milligrams per liter.

Discharge Permit: DP-1745, Severn Peanut Co. dba Hampton Farms-Portales

- County: Roosevelt | Closest City: Portales
- Applicant: Severn Peanut Co. dba Hampton Farms-Portales, Trindy Valdez, Plant Manager, 6B SR 467, P.O. Box 1018, Portales, NM 88130.
- NMED Permit Contact: Sara Arthur, Geoscientist, Sara.Arthur@state.nm.us, Telephone: 505-660-7887.

Notice: DP-1745: Severn Peanut Co. dba Hampton Farms-Portales proposes to renew the Discharge Permit for post closure monitoring. Contaminants in groundwater at this facility include nitrogen compounds, total dissolved solids (TDS) and chloride. The facility is located at 6B SR 467, approximately 0.5 miles NE of Portales, in Sections 24 and 25, T1S, R34E, Roosevelt County. Groundwater most likely to be affected is at a depth of approximately 83 feet and had a pre-discharge TDS concentration of 334 milligrams per liter.

Discharge Permit: DP-1157, High Plains Jersey

- County: Roosevelt | Closest City: Portales
- Applicant: Aaron Douma, Owner, 737 NM 267, Portales, NM 88130.
- NMED Permit Contact: Jaben Richards, Agriculture Team Leader, Jaben.Richards@state.nm.us, Telephone: 505-660-8376.

Notice: DP-1157, High Plains Jersey proposes to renew and modify the Discharge Permit for the discharge of up to 60,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 1013 S. Roosevelt Road 8, approximately 8 miles southeast of Portales, in Section 18, T02S, R36E, Roosevelt County. Groundwater most likely to be affected is at a depth of approximately 113 feet and had a pre-discharge total dissolved solids concentration of 860 milligrams per liter.

Discharge Permit: DP-1155, NMDOT District 4 Service Center & Maintenance Yard

- County: San Miguel | Closest City: Las Vegas
- Applicant: New Mexico Department of Transportation, Gabriel Lucero, Assistant District Engineer, P.O. Box 10, Las Vegas, NM 87701.
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: 505-699-8564

Notice: DP-1155, NMDOT District 4 Service Center & Maintenance Yard: New Mexico Department of Transportation proposes to renew the Discharge Permit for the discharge of up to 43,200 gallons per day of treated groundwater from a remediation system into an infiltration gallery. Potential contaminants from this type of discharge include organic compounds and total dissolved solids. The facility is located at 28 Bibb Industrial Drive, Las Vegas, in Section 3, T15N, R16E, San Miguel County. Groundwater most likely to be affected is at a depth of approximately 11.5 feet and had a pre-discharge total dissolved solids concentration of 420 milligrams per liter.

Discharge Permit: DP-1185, Lakeside Mobile Home Park

- County: San Miguel | Closest City: Las Vegas
- Applicant: Lakeside MHP, LLC, Jeff Salman, 34 Villa Sangria, Las Vegas, NM 87701.
- NMED Permit Contact: Avery Young, Environmental Scientist, Avery.Young@state.nm.us, Telephone: (505) 699-8564

Notice: DP-1185, Lakeside Mobile Home Park: Lakeside MHP, LLC proposes to renew the Discharge Permit for the discharge of up to 16,650 gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 29 Juniper Drive, approximately five miles north of Las Vegas, in Section 3, T16N, R16E, San Miguel County. Groundwater most likely to be affected is at a depth of approximately six feet and had a pre-discharge total dissolved solids concentration of 2,510 milligrams per liter.

Discharge Permit: DP-1665, Mesilla Valley Chili Co.

- County: Sierra | Closest City: Hatch
- Applicant: Duane Gillis, PO Box 405, Hatch, NM 87937.
- NMED Permit Contact: Jaben Richards, Agriculture Team Leader, Jaben.Richards@state.nm.us, Telephone: 505-660-8376.

Notice: DP-1665, Mesilla Valley Chili proposes to renew the Discharge Permit for the discharge of up to 25,000 gallons per day of wastewater from the production area of a chile processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at Barker Road 1, approximately 17 miles north of Hatch, in Section 26, T16S, R05W, Sierra County. Groundwater most likely to be affected is at a depth of approximately 54 feet and had a pre-discharge total dissolved solids concentration of 231 milligrams per liter.

Discharge Permit: DP-191, Village of Questa Wastewater Treatment Facility

- County: Taos | Closest City: Questa
- Applicant: Village of Questa, The Honorable John Ortega, Mayor, PO Box 260, Questa, NM 87556
- NMED Permit Contact: Andrew Romero, Environmental Scientist, AndrewC.Romero@state.nm.us, Telephone: 505-660-8624.

Notice: DP-191, Village of Questa Wastewater Treatment Facility: The Village of Questa proposes to renew the Discharge Permit for the discharge of up to 175,000 gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 2298G State Highway 522, approximately 1.5 miles south of Questa, in Section 1, T28N, R12E, Taos County. Groundwater most likely to be affected is at a depth of approximately 24 feet and had a pre-discharge total dissolved solids concentration of 258 milligrams per liter.

Discharge Permit: DP-1034, Edeal Dairy

- County: Valencia | Closest City: Los Lunas
- Applicant: Scott Edeal, Owner, 147-A Edeal Rd. Los Lunas, NM 87031.
- NMED Permit Contact: Jaben Richards, Agriculture Team Leader, Jaben.Richards@state.nm.us, Telephone: 505-660-8376.

Notice: DP-1034, Edeal Dairy proposes to renew the Discharge Permit for the discharge of up to 35,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 147-A Edeal Rd., approximately 1.5 miles south of Los Lunas, in Section 3, T06N, R02E, and Sections 34 and 35, T07N, R02E, Valencia County. Groundwater most likely to be affected is at a depth of approximately 5 feet and had a pre-discharge total dissolved solids concentration of 300 milligrams per liter.

Discharge Permit: DP-1950, Former Belen Armory Site Remediation

- County: Valencia | Closest City: Belen
- Applicant: Byron T. Kesner, Environmental Specialist, NM Department of Military Affairs, 47 Bataan Boulevard, Santa Fe, NM 87508.
- NMED Permit Contact: Aracely Tellez, Environmental Scientist, Aracely.Tellez@state.nm.us, Telephone: (505) 629-8864.

Notice: DP-1950, Former Belen Armory Site Remediation: NM Department of Military Affairs proposes the discharge of up to 260 gallons per day of remediation solution to injection points to assist cleanup of manganese contamination in groundwater. Potential contaminants from this type of discharge include inorganic compounds. The facility is located at 715 S Main Street, Belen, in Section 18, T05N, R02E (projected), Valencia County. Groundwater most likely to be affected is at a depth of approximately 12 feet and had a pre-discharge total dissolved solids concentration of 1,700 milligrams per liter.
