

Dear Applicant,

A permit is required in New Mexico to perform hemp extraction, manufacture human consumable hemp products, or operate a warehouse where hemp extract is stored. Each facility type, as defined in 20.10.2 NMAC, is required to be permitted separately. For example, if a person conducts hemp extraction and later formulates the hemp extract into a hemp product or finished product, two permits would be required for that operation. The only exception is that a hemp extraction facility or hemp manufacturing facility do not require an additional hemp warehouse permit. A hemp warehouse permit is only required when hemp extract will be stored at a location that does not possess a current hemp extraction manufacturing facility permit. At this time, a permit is not required to warehouse or sell packaged hemp finished products.

Permit Applications **must** be completed as follows:

1. All sections of the application must be completed.
2. The packet **must** have a table of contents.
3. Each section, corresponding to application section #, should be labeled and inserted in chronological order (i.e. Section 1, Section 2, Section 3).
 - a. Hemp Warehouse Application: Sections and subsections should be labeled to match the updated application. (i.e. Section 4 would be labeled as "Product Information" in the packet, Subsection 4.1.3 would be labeled "Manager and employee training" and the SOP or plan for testing Hemp Finished Product would be labeled as 4.1.3.1 under that Subsection).
4. All required attachments **must** be submitted as one "packet" with pages numbered and listed in the table of contents (it's preferred in a three-ring binder).
5. Clearly denote any portions of your application that you believe to be a trade secret. See "Trade Secrets" below for further details.
6. When ready to submit email cannabis.hemp.bureau@env.nm.gov or call (505) 222-9502 for submission instructions.

TRADE SECRETS

PRIOR to submitting the application, please clearly denote any portions of your application that you believe to be a trade secret under the meaning of Subsection 14-2-1(F) of the Inspection of Public Records Act.

"Trade Secret", as used in the Inspection of Public Records Act, means information, including a formula, pattern, compilation, program, device, method, technique or process, that:

- (1) derives independent economic value, actual or potential, from not being generally known to and not being readily ascertainable by proper means by other persons who can obtain economic value from its disclosure or use; and
- (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

If you have further questions, please email us at cannabis.hemp.bureau@env.nm.gov or (505) 222-9502.

Application Date: _____

Section 1 – Plans

1.1 FLOOR PLAN:

Submit floor plans drawn to scale that include the location and identification of all equipment, including but not limited to, the items listed in Section 2.2 below. Number each item on the floor plan and provide a key identifying the equipment corresponding to each number on the floor plan.

1.2 LIGHTING PLANS (new construction, facility conversion, or lighting change):

Provide plans that indicate the locations and specifications of all lighting.

Note: All lights in manufacturing areas, dry storage areas, dishwashing areas, inside equipment, and above areas where open products are held or displayed must be equipped with shatter proof bulbs or shields that will protect open product, utensils and equipment from broken glass if a bulb is broken.

1.3 SITE PLAN:

Provide a site plan which includes the following applicable items:

- 1) Dumpster enclosures and trash compactors
- 2) Outside walk-in coolers/freezers
- 3) Outside product storage areas
- 4) Location of well heads and well water supply lines servicing the building
- 5) Location of on-site liquid waste treatment systems and associated lines servicing the building
- 6) Grease interceptors/grease traps

Section 2 – Equipment & Plumbing

2.1 EQUIPMENT SPECIFICATIONS:

Submit equipment specification sheets, including make and model numbers for all equipment listed in this section. If a specification sheet lists more than one piece of equipment, identify the specific equipment to be used. Number each specification sheet with the floor plan number assigned in 2.2 below.

2.2 EQUIPMENT IDENTIFICATION

<i>Check all that apply to your facility & add others not listed. When requested list ID #. If necessary, use another page.</i>					
<input type="checkbox"/>	Hand sink(s) (required)	<input type="checkbox"/>	Utility Mop sinks	<input type="checkbox"/>	Toilet Facilities
<input type="checkbox"/>	Chemical Storage Areas	<input type="checkbox"/>	Floor Sinks/Floor Drains	<input type="checkbox"/>	Hose bibs/hose reels (if applicable)
<input type="checkbox"/>	Personal Storage Areas	<input type="checkbox"/>	Hemp Product Storage Areas	<input type="checkbox"/>	Non-hemp product Storage Areas
<input type="checkbox"/>	Water Heater Locations	<input type="checkbox"/>	Chemical Dispensing Units	<input type="checkbox"/>	Garbage/Recyclables Storage
<input type="checkbox"/>	Refrigeration Units	<input type="checkbox"/>	Freezer Units	<input type="checkbox"/>	Other:
<input type="checkbox"/>	Other:	<input type="checkbox"/>	Other:	<input type="checkbox"/>	Other:

2.3 REFRIGERATION:

Refrigeration Capacities			
ID # on Plan or Location	TYPE OF UNIT	# OF UNITS	TOTAL CUBIC FEET
	Walk-in Cooler		
	Walk-in Freezer		
	Reach-in Cooler		
	Reach-in Freezer		
	Other:		

2.4 HANDWASHING SINKS:

Handwashing Sink (required in all manufacturing areas)		
Do all sinks have a mixing valve or combination faucet with hot and cold running water under pressure?	YES <input type="checkbox"/>	NO* <input type="checkbox"/>
I acknowledge and understand that paper towels (stored in enclosed dispensers) & hand soap will be available at all times & at each handsink.		
Signature:		

2.5 WAREWASHING:

Manual Warewashing - Include the size of each compartment (*length x width x depth*) of the warewashing sinks, soiled and clean drain board lengths, and whether or not a pre-rinse spray hose will be installed for each warewashing area, including bars.

Note: Warewashing sinks must be large enough to accommodate the largest piece of equipment or utensils used.

Manual Warewashing Information					N/A <input type="checkbox"/>
ID # on Plans or Location	Length (inches) of Soiled Drain board (required)	Dimensions (inches) of Sink Compartments (L x W x D)	Length (inches) of Clean Drain board (required)	Pre-Rinse Sprayer Yes/No	
		X X		YES <input type="checkbox"/>	NO <input type="checkbox"/>
		X X		YES <input type="checkbox"/>	NO <input type="checkbox"/>

Drain board Alternatives:
If soiled and clean drainboards will not be provided, indicate the methods that will be used and provide specification sheets:

Mechanical Warewashing - Provide make and model number(s) and attach specification sheets for each warewashing machine by completing the table below.

Mechanical Warewashing Information							N/A <input type="checkbox"/>
ID # on Plans or Location							
Make	Model #	Sanitizing Method		Drain board Length (inches)	Pre-Rinse		Utensil Soak Sink Dimensions (inches) (L x W x D)
		Heat	Chemical		Yes	No	
		<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	X X
		<input type="checkbox"/>	<input type="checkbox"/>		<input type="checkbox"/>	<input type="checkbox"/>	X X

Dirty Dishes

Where will dirty dishes be stored prior to cleaning?

How will they be rinsed before cleaning and sanitizing?

Complete table below to indicate equipment that cannot be moved to be cleaned and sanitized and must be cleaned in place. If more room is necessary, attach an additional page.

N/A <input type="checkbox"/> Clean-In-Place Equipment Installation List <i>Note: Under "Installation Method", check all that apply.</i>					Installation Method					
					Floor Mounted			Counter/ Table-Mounted		
ID # on Plan or Location	Equipment	Make/Model	New (N) / Used (U)	Plumbing Required Yes / No	Casters	Legs (at least 6 inches)	Sealed in Place	Portable	Legs (at least 4 inches)	Sealed in Place

2.6 PLUMBING CONNECTIONS:

Complete table below for all related equipment and plumbing fixtures. Indicate if fixtures or equipment will be indirectly drained (e.g. floor sink or air gap), directly connected to the sewer (p-trap), and/or what method of backflow prevention will be used (if applicable).

ID # on Plan or Location	Fixture or Equipment		Indirect/Direct Drainage	Method of Backflow Prevention
	Warewashing Sinks	N/A <input type="checkbox"/>		
	Warewashing Machines	N/A <input type="checkbox"/>		
	Garbage Disposals	N/A <input type="checkbox"/>		
	Hand Sinks	N/A <input type="checkbox"/>		
	Chemical Dispensing Units	N/A <input type="checkbox"/>		
	Walk-in Refrigeration /	N/A <input type="checkbox"/>		
	Mop / Utility Sink	N/A <input type="checkbox"/>		
	Other:			
	Other:			

Note: Approved backflow protection is intended to protect the water supply. A vacuum breaker on water inlet lines for dishwashing machines, garbage disposals, or hose bibs is an example. Indirect drainage is intended to protect fixtures from sewage backup. An air gap at warewashing is an example.

2.7 WATER HEATER(S)

Provide type and capacity of all water heaters. **Provide specification sheet(s).**

Water Heater	
Type (Ex: Standard, Quick Recovery, Tankless)	Capacity

Booster Heater for Mechanical Warewashing Machine:		N/A <input type="checkbox"/>
Is a separate booster heater provided?	YES <input type="checkbox"/>	NO <input type="checkbox"/>

2.8 FIXURES REQUIRING HOT WATER

Provide the number of plumbing fixtures requiring hot water in the table below. This information will be used to determine the hot water demand for the facility and sizing criteria for the water heater.

Plumbing Fixtures Requiring Hot Water	# of Fixtures Throughout Facility	Plumbing Fixtures Requiring Hot Water	# of Fixtures Throughout Facility
3-compartment sinks		Garbage can washer	
Warewashing machines		Showers	
Pre-rinse sprayers		Hose bibs used for cleaning	
Utensil soak sinks		Other:	
Hand sinks include restrooms		Other:	
Mop sinks/Utility sinks		Other:	

Section 3 – Water & Sewage

3.1 WATER SOURCE, AVAILABILITY, & SAMPLING

Water Availability:
I acknowledge and understand that running water is required at <u>ALL</u> times and agree to discontinue all product-related activities, if water is not available, until water service is restored, or an alternative plan is approved by NMED.
Signature: _____

Water Supply: (Select the type of water supply system that services the facility)												
<input type="checkbox"/> Public Water System - Name of municipality: _____												
<input type="checkbox"/> Private (sampling required as outlined below – if possible, initial samples should be submitted with application): Submit a copy of the most recent water sample test results that meet the drinking Water quality standards of a non-community water system as specified in 20.7.10 NMAC.												
<table border="1"> <thead> <tr> <th>Type</th> <th>Frequency</th> <th>Limit</th> </tr> </thead> <tbody> <tr> <td>Total Coliform</td> <td>Initial and Quarterly</td> <td>Absent</td> </tr> <tr> <td>Nitrate</td> <td>Initial and Annual</td> <td>10 ppm</td> </tr> <tr> <td>Nitrite</td> <td>Initial</td> <td><1.0 ppm</td> </tr> </tbody> </table>	Type	Frequency	Limit	Total Coliform	Initial and Quarterly	Absent	Nitrate	Initial and Annual	10 ppm	Nitrite	Initial	<1.0 ppm

Section 4 – Product Information

4.1 OPERATIONAL PLAN:

Provide the following information for all hemp products or hemp finished products manufactured.

Hemp Manufacturing Operational Plan Checklist	
General Information (one attachment needed for all products) REQUIRED	
4.1.1	<p><u>Planned source of hemp extract & method to demonstrate hemp product received is derived from hemp (20.10.2.11.F)</u></p> <p>4.1.1.1 Attach Standard Operating Procedure(s) OR describe in detail how you determine where hemp extract will be purchased.</p> <ul style="list-style-type: none"> • Hemp must originate from an NMDA licensed grower or a grower outside NM who is properly licensed. * • Hemp extract must originate from an NMED permitted facility ** or a facility outside NM who is properly licensed. * <p>SOPs for hemp and hemp extract source must include the following:</p> <ol style="list-style-type: none"> 1. Hemp product sourced from NM for extraction and/or manufacturing must be from NMED CHB permitted facility. 2. Hemp product sourced from out of state for extraction and/or manufacturing must be: <ol style="list-style-type: none"> a. from sources approved by NMED. b. from a facility that is properly licensed by the state hemp authority for the product they provide. * <p>NMED CHB also recommends SOPs for out of state sources include the following:</p> <ol style="list-style-type: none"> 1. Obtain proof of proper licensing before sourcing hemp products from a facility (proof of permitting could be as simple as requesting a copy of the providers current license issued by the state's hemp authority). <p>4.1.1.2 Attach Standard Operating Procedure(s) OR describe in detail how you will demonstrate hemp product is derived from hemp.</p> <p>* Visit https://www.env.nm.gov/cannabis-hemp/approved-out-of-state-sources/ for information regarding approved out of state sources for hemp and hemp extract.</p> <p>** Visit https://www.env.nm.gov/cannabis-hemp/nm-approved-hemp-facilities/ for information regarding NMED CHB permitted hemp facilities.</p>
4.1.2	<p><u>Security and limited access to hemp-derived material (w/ THC concentration >0.30%) and disposition of unused hemp product and residual solvents</u></p> <p>4.1.2.1 Attach Standard Operating Procedure(s) OR plan to secure and limit access to hemp-derived material with THC concentration >0.30% (20.10.2.11.J).</p> <p>4.1.2.2 Attach Standard Operating Procedure(s) OR plan to monitor practices in 4.2.2.1.</p> <p>4.1.2.3 Attach monitoring log.</p>
4.1.3	<p><u>Manager and employee training</u></p> <p>4.1.3.1 Attach Standard Operating Procedure(s) OR describe the manager and employee training plan and record keeping system to track training (20.10.2.9.E, 21 CFR 117.4, 21 CFR 117.9).</p> <p>4.1.3.2 Attach training log.</p>

<p>4.1.4</p>	<p><u>Employee Health & Hygiene</u> (20.10.2.9.A – 2017 FDA Food Code 2-201.11, 2-201.11, 201.12, and 2-201.13)</p> <p>4.1.4.1 Attach Standard Operating Procedure(s) OR Employee Illness Policy, describing:</p> <ul style="list-style-type: none"> • How permit holder will require employees report illness information to the person in charge. • How employees will report illnesses to the permit holder/person in charge. • Specific illnesses and symptoms covered by the policy. • How to determine when employees will be excluded or restriction in work duties due to illness or when they have infected cuts or lesions. • How to determine when employee exclusion or restriction will be removed. <p>4.1.4.2 Attach Standard Operating Procedure(s) OR describe how will bare hand contact with hemp products will be avoided during production and packing (i.e. gloves, utensils, dispensing equipment, others).</p> <p style="text-align: center;">Helpful Resources</p> <p>The FDA Employee Health and Personal Hygiene Handbook is a great resource to utilize for policies and</p>		
<p>4.1.5</p>	<p><u>Standard Sanitation Operating Procedures (SSOPs)</u></p> <p>4.1.5.1 Attach SSOPs that addresses sanitation conditions and practices before, during, and after manufacturing. SSOPs to address, at a minimum, the following should be included:</p> <ul style="list-style-type: none"> • Practices <ul style="list-style-type: none"> ○ Safety of the water. <ul style="list-style-type: none"> ▪ Monitoring backflow prevention devices. ▪ Water sampling and limits (if private source). ○ Condition and cleanliness of product-contact surfaces, including equipment, work surfaces, utensils, gloves, and outer garments. ○ Prevention of cross contamination from insanitary objects, including chemicals and personal items, to product, product packaging material, and other product-contact surfaces, including equipment, work surfaces, utensils, gloves, and outer garments, and from raw product to manufactured product. ○ Prevention of allergen cross contact. ○ Maintenance of hand washing, hand sanitizing, and toilet facilities. ○ Prevention of adulteration of product, product-packaging material, and product-contact surfaces from adulteration with lubricants, fuel, pesticides, cleaning compounds, sanitizing agents, condensate, and other chemical, physical, and biological contaminants. ○ Proper labeling, storage, and use of toxic compounds. Include: <ul style="list-style-type: none"> ▪ Type and concentration of sanitizer used for warewashing and hemp product surfaces (such as tables/counters). Target examples: chlorine-100ppm, quaternary ammonium-200ppm, and iodine-12.5ppm. ○ Control of Employee health conditions that could result in the microbiological contamination of hemp products. ○ Exclusion of pests from the hemp facility. • Monitoring - Describe how the hemp facility shall monitor the conditions and practices during extracting and manufacturing with sufficient frequency to ensure, at a minimum, conformance with those conditions and practices specified in the SSOPs are being met. • Records - Describe how the facility shall maintain SSOPs records that, at a minimum, document the 		
<p>4.1.6</p>	<table border="1" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> <p><u>Pest Control Plan:</u> Attach proposed pest control plan.</p> </td> <td style="width: 50%; vertical-align: top;"> <p><u>Indicate who will perform pest control for the facility:</u> <input type="checkbox"/> Professional Service <input type="checkbox"/> Personal Application</p> </td> </tr> </table>	<p><u>Pest Control Plan:</u> Attach proposed pest control plan.</p>	<p><u>Indicate who will perform pest control for the facility:</u> <input type="checkbox"/> Professional Service <input type="checkbox"/> Personal Application</p>
<p><u>Pest Control Plan:</u> Attach proposed pest control plan.</p>	<p><u>Indicate who will perform pest control for the facility:</u> <input type="checkbox"/> Professional Service <input type="checkbox"/> Personal Application</p>		

4.1.7	<p><u>Recall Plan (20.10.2.8.C(4))</u></p> <p>4.1.7.1 Attach a description of the firm's written product recall procedure, including:</p> <ul style="list-style-type: none"> • Plans for identifying products which may be adulterated or misbranded. • Procedures for collecting, warehousing, controlling, reworking, and/or disposal of recalled products. • System for determining the effectiveness of recalls. • Persons to contact when implementing a recall, including the regulatory authority.
4.1.8	<p><u>Hemp Transportation Manifest (20.10.2.10.B-C, E-F)</u></p> <p>4.1.8.1 Attach Standard Operating Procedure(s) OR plan to ensure hemp transportation manifests used accompany all shipments and contain all required information.</p> <p>4.1.8.2 Attach proposed hemp transportation manifest to be used for shipments.</p>
4.1.9	<p><u>Proposed record keeping system to assure traceability of hemp products from receiving to distribution</u></p> <p>4.1.9.1 Attach Standard Operating Procedure(s) OR plan to describe what records will be kept, and how they will be maintained for a minimum of 2 years. The SOP or plan must clearly demonstrate how product can be tracked from receiving to distribution to provide traceability and demonstrate the disposition of all hemp, hemp intermediate product, and hemp extract.</p> <p>4.1.9.2 Attach logs/records used to maintain traceability of all hemp, hemp intermediate product, and hemp extract and to monitor/document achievement of critical product safety factors (critical limits).</p> <p>Examples of logs/records include, but are not limited to:</p> <ul style="list-style-type: none"> • Receiving: to document compliance with hemp and hemp extract source requirements. Must contain, at a minimum, the following information (note: terminology may vary): date received, product received, supplier, lot #, amount received, initial or signature of receiver. <ul style="list-style-type: none"> ○ The following must also be a part of the receiving record: <ul style="list-style-type: none"> ▪ Hemp harvest certificate (if receiving hemp). ▪ Hemp transportation manifest from shipper. ▪ COA (if receiving hemp finished product). • Storage: to document security and limited access to hemp extract or hemp intermediate product with a Total THC concentration of greater than three tenths of a percent (0.30%). • Production: to monitor production requirements such as ingredient amounts, cooking time/temp, cooling. • Analytical Lab Testing: to verify compliance with testing requirements & limits. • Shipping: to maintain traceability in the event of a recall and to document items like presence of transportation manifest & COA (for distribution to other business entities), condition of & temperature (if applicable) of transportation unit.

Comments:

STATEMENT: I hereby certify that the above information is correct, and I fully understand that any deviation from the above without prior permission from the State of New Mexico Environment Department may nullify final approval. I agree to comply with **20.10.2 NMAC – Hemp Extraction, Production, Transportation, Warehousing and Testing Regulations** and allow the regulatory authority access to the facility and records. I also certify that I have clearly denoted any portions of the application that I deem to be trade secret under the meaning of Subsection 14-2-1(F) of the Inspection of Public Records Act.

Applicant or responsible representative(s) Signature / Title Date

Applicant or responsible representative(s) Signature / Title Date

Approval of these plans and specifications by the State of New Mexico Environment Department does not indicate compliance with any other code, law or regulation that may be required--federal, state, or local. It further does not constitute endorsement or acceptance of the completed facility (structure or equipment). A pre-opening inspection of the facility with equipment in place & operational will be necessary to determine if it complies with **20.10.2 NMAC – Hemp Extraction, Production, Transportation, Warehousing and Testing Regulations**. After the pre-opening inspection is completed and an approval to open is given, the fee remittance will be required and accepted.
