

Resume

Stephen J. Dobrott

Mr. Dobrott has extensive professional experience in wildlife biology and management. He has dedicated his career as a wildlife biologist to the preservation of rare and endangered species and habitats of the Southwest. His work on the endangered Masked Bobwhite resulted in the acquisition of a national refuge in Arizona for this species and its recovery in Sonora, Mexico. His work on the Gray Ranch in New Mexico resulted in national awareness of the unique wildlife values there, which expedited the acquisition of the property by The Nature Conservancy. He managed the Ladder Ranch, one of New Mexico's largest private properties for wildlife diversity and bison production for 24 years. He is currently the Ambassador for Ted Turner Expeditions, an eco-tourism business based in Truth or Consequences, New Mexico.

Education

B.S. Wildlife Biology, University of Arizona, 1973
U.S. Fish and Wildlife Service Training:
Refuge Manager
Biological Statistics
Fire Suppression/Prescribed Fire

Professional Experience

The Victorio Company, Range/Wildlife Specialist:
