RE: [EXTERNAL] Env	It is weird bc your subject line is different from the subject line that SmartComment usually has for this “project” (what they call our permitting action that is open for comment). See my screenshot below for what these usually look like. You may want to reach out to IT to figure out why you are getting this as this YGI “project” has not been assigned to you in SmartComment. Instead of fwding to me and/or Julie directly, can you please fwd them to: aqb-yucca-microgrid@env.nm.gov <mailto:aqb-yucca-microgrid@env.nm.gov> I can help you set up an automatic filter to do this if you need. Thank you!	Ziegler, Abra, ENV	/O=EXCHANGELABS/OU=EX	EX	Primm, Kathleen, ENV	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Name: Heather Duke Address: 13509 Chico Rd Ne City: Albuquerque State: New Mexico ZIP Code: 87123 Email: tearing_herd_4n@icloud.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application The amount of water this project will consume is frankly unconscionable. Everything that lives needs freshwater, and, as we are all aware, there is not enough to go around in the state as it is. There's constant water right fights between states, we're in the middle of a drought, and the state is growing. Any so-called financial gains that anyone in the state may receive is not worth the loss of life the loss of water will cause.	noreply@smartcor	noreply@smartcomment.co	SMTP	tearing_herd_4n@icloud.com	tearing_herd_4n@icloud.com	SMTP	Normal	Normal

Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	noreply@smartcor	noreply@smartcomment.co	SMTP	cassandra5656@gmail.com	cassandra5656@gmail.com	SMTP	Normal	Normal

Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application

Please dont approve these permits. I opposed the construction of this microgrid. The financial gains of this project don't support the environmental damage to the community, there is no worst poverty that air pollution and water contamination.

[EXTERNAL] Yucca (	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application The public should be given an additional 60 days to review and comment on the air quality allowing so community members can participate equitably. The air quality permit application should be denied given Bloom Energy's history of illegal dumping hazardous waste. If the permit is not denied, a public hearing needs to be held in Santa Teresa, in both English and	noreply@smartcor	noreply@smartcomment.co	SMTP	hannahjolene04@gmail.com	hannahjolene04@gmail.com	SMTP	Normal	Normal
	often get email from cambrien73@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, To accept this application would be deeply irresponsible. The multitude of noxious chemicals that would be released into the air and ground as a result of this pipeline are astronomical in reach. It would cause sickness to humans and animals alike. Given Bloom industries track record for misleading and untrue statements as well as a history of illegal dumping, NMPED should not accept their assurances of minimal environmental impact. Dona Ana should not trade short-term economic gain for long-term damage to the area that we live. Please deny this permit. Sincerely, Beth Tierney 550 Brown Rd.

[EXTERNAL] Yucca G	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Fuel cells will drastically increase air pollution in our county and come with other significant environmental risks. Fuel cells also create hazardous waste and the fuel cell provider for this project has a history of illegally dumping this waste and hiding it for several years. To add 10 million tons of carbon dioxide pollution and a vague estimate of toxic emissions to our active and long-time nonattainment zone would be an organization. Exercise caution prior to clicking on links or opening attachments. Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. [EXTERNAL] My Pub	often get email from jstaveley27@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. This application is shocking and unethical. YGI must not be allowed to greenwash a fossil-fueled plant that erases New Mexico's climate progress. YGI needs to stop now. It is our children and our communities they need to be thinking about. It is important to know that viable alternatives exist. [EXTERNAL] My Pub	often get email from 2chrisorton2@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Chris Orton	2chrisorton2@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I submit this comment in strong opposition to Air Quality Construction Permit Applications 10732 (East Microgrid) and 10734 (West Microgrid) proposed by Acoma, LLC in southern Doña Ana County to power Project Jupiter. These applications are unlawfully and deceptively designed to evade public health protections and, if approved, would result in significant air pollution and destructive climate impacts that will harm all New Mexicans. NMED must reject both applications outright, and require Acoma LLC to submit a single, accurate permit that fully accounts for the Project's true pollution impacts because: 1. The Project Is a Single Pollution Source and

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, Dear NMED: I have lived in New Mexico for more than forty years and care deeply about this place, its communities, and the health of the land. This project conflicts with the values our state should be advancing: sustainability, responsibility to future generations, and protection of local communities. Bloom Energy's Solid Oxide Fuel Cells have never been deployed at anything close to the scale proposed here. The application relies on limited testing of a single 65-kW unit under ideal conditions, while Project Jupiter proposes 2,275 individual fuel cell stacks operating continuously in the real world. That is not a reliable basis for a organization. Exercise caution prior to clicking on links or opening attachments. Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, Please deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) so-called Microgrid for Project Jupiter. There's nothing micro about a project that will double the air pollution in NM, greatly exacerbating the health impacts of particulate matter, CO2, and heat islands, and wrecking our capacity to reach our climate change prevention goals. The project enacts environmental injustice, as BIPOC communities' health will be disproportionately affected. It will destroy our groundwater reserves. This is a desert!!! You will be making our state unlivable for future generations.

Dear Air Quality Bureau, NMED, I was born in Delaware, which gets massive income from allowing big corporations to incorporate there. I farmed in rural West Virginia, not far from the "Chemical Capitol Of America" the Charelston, WV, the sates Capitol. Surrounded by deforested mountain tops that had been stripped and laid waste to. I then ranched in Montana, near the worlds largest copper mine. Need I say more? I have made New Mexico my retirement home in this Enchanted Land for which I am very grateful. The last thing we need in our State is a monster like this, especially since it could be powered by Solar & Wind. Please look forward in time and choose actions

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I am writing to express my concerns about the Air Quality Construction Permit 10883 for the Yucca Growth Infrastructure Microgrid in Southern Dona Ana County. I am concerned about the the new version of this project which will now use 2,275 Bloom Energy Solid Oxide fuel cells. As far as I can tell, the biggest, operational Bloom installation appears to be a 40 MW facility. This is 60 times smaller that the proposed project. Will this hugely enlarged Bloom project function effectively? The emissions testing data available for this new Bloom project is apparently based upon testing of a single 65 kW unit 4 times for 4 hours. Is this a realistic way to evaluate a proposed project which is 60 times larger? I think not. The design of the project also seems problematic since there will be 2,275 separate	Ronald Parry	rjparry41@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from janburrusrogers@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Janet Rogers	janburrusrogers@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Public C	often get email from sonicrules03@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I submit this comment in strong opposition to Air Quality Construction Permit Applications 10732 (East Microgrid) and 10734 (West Microgrid) proposed by Acoma, LLC in southern Doña Ana County to power Project Jupiter. These applications are unlawfully and deceptively designed to evade public health protections and, if approved, would result in significant air pollution and destructive climate impacts that will harm all New Mexicans. NMED must reject both applications outright, and require Acoma LLC to submit a single, accurate permit that fully accounts for the Project's true pollution impacts because: 1. The Project Is a Single Pollution Source and Must Be Permitted as One	Samantha Carter	sonicrules03@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from drdeedre@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Andrea Armstrong	drdeedre@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been

Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Name: Sam Gurule Address: City: Santa Fe State: New Mexico ZIP Code: 87508 Email: gurulesmc@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I am a resident of Santa Fe, New Mexico and I ask that you deny Yucca Growth Infrastructure's air quality permit. My family and I have lived in New Mexico for generations and NM will forever be our home. However, our future here is being put in jeopardy with this proposed air quality permit. A change to fuel cells has minimal impacts on the suffering we will endure as a result of the gas
