[EXTERNAL] Yucca G	organization. Exercise caution prior to clicking on links or opening attachments. Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Name: Kelly Johnson State: N/A Email: dexxythehexxy@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I believe it is a horrible idea to build a data center, especially near a river and active community. Long term exposure to the loud buzzing from data centers will lead to people losing their hearing, along with the air quality being ruined by HAPs. The Rio Grande will also dry up even worse than it has before, considering how much water AI data centers need to cool down. I've seen many people from the nearby community expressing how badly they are against building anything related to AI. It would be disrespectful to ignore the people who live there. Please do not go through with Project	noreply@smartcor	noreply@smartcomment.co	SMTP	dexxythehexxy@gmail.com	dexxythehexxy@gmail.com	SMTP	Normal	Normal

I love my state and I am deeply concerned about the already dwindling water supply that we have in this state. Building a giant AI data center that hoards all of the water is just not sustainable in a desert. I am also concerned for the air quality and environment. Our state has already been used and abused so many times for its vast uninhabited land and I do not think it should	noreply@smartcor	noreply@smartcomment.co	SMTP	jaquezjuleima@gmail.com	jaquezjuleima@gmail.com	SMTP	Normal	Normal
[EXTERNAL] Please l	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, As someone with compromised lung function, I am particularly sensitive to any air quality impacts. For years this country has attempted to decrease air pollution from cars, coal fired plants, etc. Why would we now allow these colossal data centers undo what progress has been made by bending to the will of the big tech companies and their flimsy inducements. The areas in which they propose to locate may think they are getting something in return, but rest assured any advantages are dwarfed by the profits received by the tech company executives. In a state, not to mention a world already suffering from increased heat and disappearing clean water as a result of climate change, it is irresponsible to approve the construction of data centers that will further negatively impact our environment. Any and all permits should be denied to ensure that NM is not host to these detrimental facilities. Think about the world being left to the next generation. Dear Air Quality Bureau, NMED, Hello, I am writing to possible the air quality permit application for the YGI microgrid for Prokect Jupiter. I believe that this project will negatively impact the health and well-being of New Mexico residents. I also know that Project Jupiter has been fraudulently using peoples' names in support of the project, which is illegal. I don't trust the company and think this will be incredibly bad for the people of New Mexico. Sincerely, Katy Gross

Dear NMED Air Quality Project Jupiter Yucca, Data Centers are an abomination-- first of all for our rapidly deteriorating climate stability, our air, WATER, & land, & the environment as a whole !!!!! These energy & water devouring entities should be BANNED ENTIRELY from all possible locations they are targeting. The ONLY way such gargantuan power & resource hogs, that pose such huge threats to our environment, is to REQUIRE that they are 100% self-contained. This would mean using on-site, RENEWBLE energy that covers all their operations, & the ability to extract & reuse water pulled from the atmosphere, NOT local water sources!!!! The former requirement could be met, but, the technology for harvesting enough water from the air, in enough quantity to cool their processors, does not exist. Ergo, additional installations of these damaging data centers -- which exist SOLELY TO FURTHER ENRICH ALREADY OBSCENELY WEALTHY & POWERFUL, PRIVATE TECH COMPANIES -- must	Monica Steensma	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Dear NMED Air Quality Project Jupiter Yucca, Sam Altman is one of Trump's billionaires, who cares about making more money. That's it. He doesn't care about the health and welfare of New Mexicans and our surrounding neighbors. Notice that he hasn't chosen to locate this data center next door to his mega-mansion on Russian Hill in San Francisco. Or, his 950-acre working ranch in Napa Valley or his private 22-acre beachfront estate in Kailua-Kona. We KNOW that the energy demands of AI will be increasingly high - extraordinarily so - and yet who is insisting that humans review the consequences, especially the unintended ones? You, the Environmental Department, can facilitate a decision on this that serves the common good, and a public hearing would be a good faith way to begin. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application.

	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Dear NMED, Please continue to support the interests of New Mexicans as you have done so well for many years. The race to build AI data centers across the country ignores the harm these massive projects impose on the population. This rush to overbuild is driven by money and not national security. Ultimately, many of these projects are doomed to fail because they are unsustainable. In the future, when the AI frenzy has settled down and practical regulations and safety measures are in place, maybe New Mexico can support a data center. I would argue that right now is too early in the game to risk the certain damage that an AI data center would inflict on our people and our environment. Please deny project Jupiter's air permit and hold a public hearing so that we can see if New Mexicans support this venture. Thank you for your work in this area. Susan Schauer

I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	Janet Stoker	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Don't sacrifice New Mexico's scarce resources for an energy- and water-guzzling project that will deplete and damage our environment and future while bringing no significant jobs and no benefits to New Mexico. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands.

[EXTERNAL] My Pub	often get email from danielmhakman@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Dan Hakman	danielmhakman@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Reject A	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I am writing to express my support for Project Jupiter, which I believe offers significant benefits for our community. Project Jupiter is poised to bring substantial economic growth to Dona Ana County. It is anticipated to create 4,000 construction jobs and 1,500 project-supported jobs. Furthermore, Project Jupiter has committed $50 million to help repair, upgrade, and improve local water often get email from sandra.rodriguez@messages.fwwatch.org. Learn why this is important at https://aka.ms/LearnAboutSenderIdentification] CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Bureau, I urge you to deny the Air Quality Permit to construct the Yucca Growth Infrastructure (YGI) Microgrid in Dona Ana County (Permit No. 10883). Bloom Energy's solid oxide fuel cells are not clean energy. These cells still rely on natural gas and natural gas infrastructure, and this switch in technology does not address the underlying problems of air pollution and greenhouse gas emissions. These fuel cells generate significant air pollutants, including CO2 and VOCs, all of which contribute to negative health impacts. Along with air pollution, these fuel cells generate hazardous solid waste that cannot be ignored by NMED.	Sandra Rodriguez	Sandra.Rodriguez@message	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal
[EXTERNAL] My Pub	often get email from maxinenpaul@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I support the denial of Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. I'd be supportive of a data center powered by wind, solar, battery and with backup generators, and a viable plan for 100% carbon free scope 1&2 GHG emissions. This could allow for economic development without pretty substantial environmental degradation. NAAQs estimates for this permit in it's current rendition are quite high. NM doesn't need another major source of air pollution.	Maxine Paul	maxinenpaul@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I am urging NMED to deny Air Quality Construction Permit Application 10883. There is not enough research done to verify this would be a good happening for our state. As a water user in Albuquerque who has been shut off to my water rights this summer due to the drastic changes in climate world wide, I am adamantly against any water being used to propagate more profit thru tecnological means. This is not a good growth for our beautiful state. My belief is that it will raise energy prices for the hard working residents of New Mexico while limiting access to life giving water that is so essential and limited to the agricultural needs	noreply@smartcor	noreply@smartcomment.co	SMTP	jonathan2111@gmail.com	jonathan2111@gmail.com	SMTP	Normal	Normal

[EXTERNAL] My Pub	often get email from mjmcd915@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Melissa McDaniel	Mjmcd915@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from stevensgallagher@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	MICHAEL GALLAGI	stevensgallagher@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Julia Loya	loyajulia23@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, There are several schools VERY close to PJ. They deserve access to clear water and air without the threat of an unnecessary data center taking up all their resources. What about noise pollution and the effect on their quality of life? 1 person being negatively impacted by this data center should be enough for all of us to stop and think about the long term impacts. However, Project Jupiter & Oracle were very strategic in their planning because they chose to build something in a community that historically has a lack of resources thinking they will go unchallenged. It is despicable and I hope that you elected officials will stop taking hand outs and empty promises and actually represent the people you serve. [EXTERNAL] Yucca G	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Good morning. I want to express my concern over giving an air permit to a data center. I believe it provides too high a risk to the environment. We've seen far too many data centers with issues regarding sound pollution with peaks being up in the upper 60dB going non stop day and night. We do not need a data center for this reason and also concerns about their water input and output. 	often get email from morningrainbows1920@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been

Dear NMED Air Quality Project Jupiter Yucca, Please do not approve the use of methane fuel cells until research can show it does not negatively impact the air quality in New Mexico. Thank you in advance for your support!! I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals:	becky renfro	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Yucca C	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I submitted comments opposing Project Jupiter's earlier application for an air quality permit from the state. I don't see the current application as an improvement over the previous one. I oppose granting the currently-requested permit. The foreseeable harms to air quality are enormous, with pollutants such as NOX and volatile organic compounds expected to be generated in high amounts and released into the environment. If waste heat is a component of "air quality", the anticipated output of waste heat should disqualify the application, as well. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public	noreply@smartcor	noreply@smartcomment.co	SMTP	Luciannehumphrey@gmail.com	Luciannehumphrey@gmail.com	SMTP	Normal	Normal

Name: Anonymous Anonymous Address: State: New Mexico Email: rowling.riordan.1010@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Look, I'm just a student trying to survive in this modern world. I have so much of my life ahead, and I should feel safe. But sometimes it feels like I won't be able to get a proper future. Climate change has really made an impact on our world. It's OUR responsibility to make sure it doesn't get worse, considering the fact we contribute to it too. Even in school, we practice proper segregation to avoid trash everywhere. Now, this Project Jupiter thing is crazy. I think about how much impact this could do. To our environment,	noreply@smartcor	noreply@smartcomment.co	SMTP	rowling.riordan.1010@gmail.com	rowling.riordan.1010@gmail.co	SMTP	Normal	Normal

Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Name: Evelyn Donnelly Address: City: New York State: New York ZIP Code: 10065 Email: evelynrdonnelly@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application The proposed design has an individual exhaust stack on each fuel cell, of which there will be 2,275. It would be inefficient to place monitors and controls on each individual stack and there are NO proposed pollution controls on any of these stacks. How, then, will this project show evidence of their compliance with emissions limit requirements under Title V? Has there been or will there ever be upstream fuel testing of methane organization. Exercise caution prior to clicking on links or opening attachments.	noreply@smartcor	noreply@smartcomment.co	SMTP	evelynrdonnelly@gmail.com	evelynrdonnelly@gmail.com	SMTP	Normal	Normal
[EXTERNAL] DENY Y	NMED Reviewer NMED Reviewer, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *YGI's application should be denied by NMED because YGI failed to include all relevant information about Bloom Energy's problematic history. *Bloom Energy's Fuel Cells are not clean energy – no matter what YGI says. These fuel cells generate significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Permitting any microgrid facility will result in a clear example of environmental racism and NMED is required to ensure no group of people bears a disproportionate share of negative	Alexander Morgan	noreply@adv.actionnetwork.
