[EXTERNAL] Public C	often get email from mays.zan925@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I submit this comment in strong opposition to Air Quality Construction Permit Applications 10732 (East Microgrid) and 10734 (West Microgrid) proposed by Acoma, LLC in southern Doña Ana County to power Project Jupiter. These applications are unlawfully and deceptively designed to evade public health protections and, if approved, would result in significant air pollution and destructive climate impacts that will harm all New Mexicans. NMED must reject both applications outright, and require Acoma LLC to submit a single, accurate permit that fully accounts for the Project's true pollution impacts because: 1. The Project Is a Single Pollution Source and Must Be Permitted as One	Zan Mays	mays.zan925@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange EX	Normal	Normal

	NMED Reviewer Julia Kuhn, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *YGI's application should be denied by NMED because YGI failed to include all relevant information about Bloom Energy's problematic history. *Bloom Energy's Fuel Cells are not clean energy – no matter what YGI says. These fuel cells generate significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Permitting any microgrid facility will result in a clear example of environmental racism and NMED is required to ensure no group of people

[EXTERNAL] My Pub	CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Christopher Celaya	hello@celayasolutions.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, The NMED must deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. We do not need this horrible development in NM. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration. We already deal with dust storms due to unprecedented low water levels in the Rio Grande. The application relies on an unproven, unregulatable, and inadequately tested design:	Rachel Benge	crazysassyhorse@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest operating Bloom installation is a 40 MW facility -	Lindsay Keeling	lkeeling@nmsu.edu	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Noah Tamas-Parris	noahtamasparris@proton.m	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from ajharris2469@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Alicia Gilbert	Ajharris2469@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from allygarcia4516@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Ally Garcia	allygarcia4516@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

	often get email from hereitis@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been

[EXTERNAL] My Pub	often get email from bellarain2005@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Bella Norero	bellarain2005@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from krenz.msk@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Vivian MSK Krenz	krenz.msk@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] DENY Y	organization. Exercise caution prior to clicking on links or opening attachments. NMED Reviewer Julia Kuhn, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *YGI's application should be denied by NMED because YGI failed to include all relevant information about Bloom Energy's problematic history. *Bloom Energy's Fuel Cells are not clean energy – no matter what YGI says. These fuel cells generate significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Permitting any microgrid facility will result in a clear example of environmental racism and NMED is required to ensure no group of people bears a disproportionate share of negative	Gabriela León	noreply@adv.actionnetwork. [EXTERNAL] My Pub	often get email from borkitybork20@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	John Doe	borkitybork20@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from hermione.midwife@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Heather Rische	hermione.midwife@gmail.cc	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I am a biologist who has grown up in New Mexico and have developed an intimate relationship with our state's natural beauty and resources. Over several years I have borne witness to our state's deterioration, as more land is eaten away by companies with no intent to give back to our communities and stealing vital water from our rivers. Summer of 2025 I and other citizens of Albuquerque watched as the Rio Grande, a waterway of extreme cultural significance, ran dry. During fieldwork in our grasslands I saw firsthand the power indifferent energy companies wield, erecting powerlines across a pristine wildlife preserve. This summer, during a time when the river historically overruns its banks and infuses our bosque with life, it runs dry again. Our native communities are suffering under the	Jacy Dowler	jcbdowler@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] My Pub	often get email from fenderbender1986@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Travis McWhorter	fenderbender1986@gmail.c	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

	often get email from rueesstella@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I submit this comment in strong opposition to Air Quality Construction Permit Applications 10732 (East Microgrid) and 10734 (West Microgrid) proposed by Acoma, LLC in southern Doña Ana County to power Project Jupiter. These applications are unlawfully and deceptively designed to evade public health protections and, if approved, would result in significant air pollution and destructive climate impacts that will harm all New Mexicans. NMED must reject both applications outright, and require Acoma LLC to submit a single, accurate permit that fully accounts for the Project's true pollution impacts because: 1. The Project Is a Single Pollution Source and

Name: Kelly Jenks Address: kellyleejenks@gmail.com City: Las Cruces State: New Mexico ZIP Code: 88011 Email: kellyleejenks@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Please deny this permit. The emissions allowed by this permit will significantly harm air quality in this region, which is already very bad. This, in turn, harms the health of people who live here, who are already underserved by the healthcare industry. It also makes this a less desirable place to live, ultimately hurting the local economy. The people who profit most from this project do not live here--not in this region, and not even in this	noreply@smartcor	noreply@smartcomment.co	SMTP	oldskoolangelcruces74831@gmai	oldskoolangelcruces74831@gn	SMTP	Normal	Normal

Project Jupiter is poised to bring substantial economic growth to Doa Ana County. It is anticipated to create 4,000 construction jobs and 1,500 project-supported jobs. Furthermore, often get email from ruby.diercks@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	noreply@smartcor	noreply@smartcomment.co	SMTP	m.j.mccloskey@gmail.com	m.j.mccloskey@gmail.com	SMTP	Normal	Normal

[EXTERNAL] My Pub	often get email from seedtail@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Kendra Allen	seedtail@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Reply from NMED o	Recently you contacted the New Mexico Environment Department (NMED) regarding Project Jupiter/Yucca Growth Infrastructure. We appreciate you taking the time to reach out. The Public Notice for Yucca Growth Infrastructure's YGI Microgrid (Permit Number. 10883) air quality construction permit application has been published in the Albuquerque Journal and Las Cruces Sun – News. All interested persons have until July 6, 2026 (thirty [30] days from the date this notice was published) to notify the Department in writing of their interest in the permit application. The written comments should refer to the company name, facility name, and Permit Number. The written comments shall state the nature of the issues raised and how it relates to the requirements of applicable state and federal air organization. Exercise caution prior to clicking on links or opening attachments. Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. 	Recently you reached out to the Office of Governor Lujan Grisham regarding Project Jupiter, also known as Acoma LLC's East Microgrid and West Microgrid. The Governor has forwarded your concern to the New Mexico Environment Department (NMED.) Thank you for expressing your concern for the environment and the wellbeing of our beautiful state. The Public Notice for Yucca Growth Infrastructure's YGI Microgrid (Permit Number. 10883) air quality construction permit application has been published in the Albuquerque Journal and Las Cruces Sun – News. All interested persons have until July 6, 2026 (thirty [30] days from the date this notice was published) to notify the Department in writing of their interest in the permit application. The written comments should refer to the company name, facility name, and Permit Number. The written comments shall state the nature of the issues raised and how it relates to the								
Reply from NMED o	requirements of applicable state and federal air organization. Exercise caution prior to clicking on links or opening attachments. NMED Reviewer NMED Reviewer, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *YGI's application should be denied by NMED because YGI failed to include all relevant information about Bloom Energy's problematic history. *Bloom Energy's Fuel Cells are not clean energy – no matter what YGI says. These fuel cells generate significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Permitting any microgrid facility will result in a clear example of environmental racism and NMED is required to ensure no group of people	Sewell, Kim, ENV	/O=EXCHANGELABS/OU=EX EX	beckybannon@yahoo.com	beckybannon@yahoo.com	SMTP	Normal	Normal

NMED Reviewer Julia Kuhn, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *There is no evidence that Bloom Energy's Fuel Cells are clean energy, outside of YGI's own statements. These fuel cells have reportedly generated significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Data centers have been shown to have a huge impact on emissions in Northern VA, shown to account for 3% of carbon monoxide, 11% of nitrous oxide, and 3% of particulate matter pollution. They have also made it impossible for residents to live their normal lives with a constant humbuzz emanating from the facilities, causing dizziness,	Jackie Herst	noreply@adv.actionnetwork. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Casey Frank	caseykc30@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange EX	Normal	Normal

[EXTERNAL] My Pub	often get email from jelly579@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Angelica Urbano	jelly579@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

NMED Reviewer NMED Reviewer, I am submitting this comment to share my opposition to the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Please deny this application for the following reasons: *YGI's application should be denied by NMED because YGI failed to include all relevant information about Bloom Energy's problematic history. *Bloom Energy's Fuel Cells are not clean energy – no matter what YGI says. These fuel cells generate significant NOX, CO, and VOCs, all of which contribute to negative health impacts, as well as hazardous solid waste that cannot be ignored by NMED. *Permitting any microgrid facility will result in a clear example of environmental racism and NMED is required to ensure no group of people	Karen Kozik	noreply@adv.actionnetwork. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Karen Kozik	noreply@adv.actionnetwork.	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Name: Maya Durham Address: State: New Mexico Email: durhamm@unm.law.edu Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I urge the NMED to deny this permit for Stack Infrastructure and Oracle. From the beginning, this project and its backers have been anything but transparent. For one, representing themselves as "Yucca Growth Infrastructure" is misleading and undermines the companies' apparent support for New Mexicans. They have falsely reported that 80% of Dona Ana County residents support the data center and continually engage in deceptive practices to sway public opinion. This new plan claims to be better for the	noreply@smartcor	noreply@smartcomment.co	SMTP	durhamm@unm.law.edu	durhamm@unm.law.edu	SMTP	Normal	Normal

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I wholeheartedly, unequivocally loath the idea that our great desert be poisoned and destroyed by a parasitic “development” like a surveillance center. Again, this is a DESERT, with limited access to water. We most definitely do not need, nor want, additional levels of air, noise, and water pollution. Pack up and LEAVE. You are not welcome.	noreply@smartcor	noreply@smartcomment.co	SMTP	Reyj74@gmail.com	Reyj74@gmail.com	SMTP	Normal	Normal
