I am 18 a year-old American male and I can say with complete confidence that almost no one in my entire generation wants this or AI in general. These data centers may not impact our lives within the first year that they are built but they will have extremely detrimental consequences on the environment as well as OUR futures as a species.	noreply@smartcor	noreply@smartcomment.co	SMTP	XavWilcox879@Gmail.com	XavWilcox879@Gmail.com	SMTP	Normal	Normal
[EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Our water and electricity resources are inadequate for those of us who live here. Jupiter would be a colonist intrusion. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New	Anne Albrink	kwautomail@phone2action.	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Please I	CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	lucie brennan	kwautomail@phone2action.c	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Please l	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Please! We keep showing you what is wrong with this for NM! Our water and air situation as well as heat from climate change render this overtly, destructively stupid. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals:	Cheryl Gardopee	kwautomail@phone2action.c	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Name: Jennifer Pierce Address: City: Albuquerque State: New Mexico ZIP Code: 87114 Email: jrpw.self@yahoo.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I am opposed to this project. The air quality will be affected negatively in an area where the air quality fails to meet National air quality Standards. It would release toxic chemical pollutants and 10 million tons of carbon dioxide into our air. The greenhouse gas emissions would also have a negative effect. They would be at a scale that is a combination of our 3 largest cities in New Mexico combined. During times of drought	noreply@smartcor	noreply@smartcomment.co	SMTP	jrpw.self@yahoo.com	jrpw.self@yahoo.com	SMTP	Normal	Normal

[EXTERNAL] Yucca G	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application There is no justifiable reason for this project to continue in southern New Mexico. This is an obvious threat to the long-term environmental stability of all of south central New Mexico, considering Bloom Energy's unfavorable history regarding the disposal of hazardous waste. But more critical is the threat this project presents to existing water supplies and tables, and the surrender of future generations' water access and organization. [EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	TERI HACKLER	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

I'm writing to express my opposition to the proposed Air Quality Construction Permit for the Yucca Growth Infrastructure, LLC (YGI Microgrid) facility in Doña Ana County. I request that NMED deny this application and schedule a formal public hearing in the Santa Teresa/Doña Ana County area so local residents can directly voice their concerns.	noreply@smartcor	noreply@smartcomment.co	SMTP	tracynoelle@gmail.com	tracynoelle@gmail.com	SMTP	Normal	Normal
[EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Allowing this data center to waste energy and dump huge amounts of carbon pollution into the air is a bad idea. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New	David Kennedy	kwautomail@phone2action.	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

	often get email from loisowens2@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application

This is incredibly bad for our environment, we already have a limited resource of useable drinking water. If project Jupiter continues then our ecosystem is completely fucked. Climate change is already at an all time high and this will just make it worse. This is our planet we only have one, we should be trying to protect it not kill it.

Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Name: Gwen Kloo State: N/A Email: itsnotklooie@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application I am a resident of the north eastern united states. I am entirely against this project as it not only takes away water from those who desperately need it; but also takes it away from our natural environments. AI is a luxury, and a far from necessary one at that. Not only does it consume ungodly amounts of water, but it destroys habitats to make space for data centers and heavily pollutes the environment. My neighbor has a small child who last summer unfortunately passed away from heat stroke. She was barely even 3 but it was so hot our her body	noreply@smartcor	noreply@smartcomment.co	SMTP	itsnotklooie@gmail.com	itsnotklooie@gmail.com	SMTP	Normal	Normal

[EXTERNAL] My Pub	often get email from rebeccaserna43@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been	Rebecca Serna	rebeccaserna43@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

Recent wind rose maps indicate that Las Cruces, the city I intend to spend my life as a resident of, is downwind from Santa Teresa. I find the reporting that this campus will release up to 500 Mt of NOx a year deeply upsetting, and the loophole that this is technically two facilities will prevent triggering more stringent air quality monitoring	noreply@smartcor	noreply@smartcomment.co	SMTP	golokoyo@yahoo.com	golokoyo@yahoo.com	SMTP	Normal	Normal

	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Stop Project Jupiter in New Mexico. We don't have enough water for something this size and it will pollute our clean air. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals:

[EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	Athena Bressel-Ga	kwautomail@phone2action.c	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	Walter Gerstle	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Please l	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I do not want untested fuel cells powering anything let alone a giant data center. Data centers have no place in New Mexico. It is our responsibility to preserve our environment for nature and future generations. Project Jupiter has proven, thus far, to be less than honest in their operations. I say NO to Project Jupiter. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. Thank you for your comments on the Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application. Your comments have been received. Name: Zoe Miller Address: City: St. John State: Indiana ZIP Code: 46373 Email: zoegates886@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application The proposed design has an individual exhaust stack on each fuel cell, of which there will be 2,275. It would be inefficient to place monitors and controls on each individual stack and there are NO proposed pollution controls on any of these stacks. How, then, will this project show evidence of their compliance with emissions limit requirements under Title V? Has there been or will there ever be upstream fuel testing of methane	noreply@smartcor	noreply@smartcomment.co	SMTP	zoegates886@gmail.com	zoegates886@gmail.com	SMTP	Normal	Normal
[EXTERNAL] Please l	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, New Mexico is known for its beautiful blue skies and sunshine. We do NOT want a data center, period. The air contamination, along with the water usage, will be highly detrimental to our communities. Hold this public hearing so the voices of Southern New Mexicans can be heard! I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. [EXTERNAL] Yucca G	Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Project Jupiter's power plant will release up to 10 million tons of climate-warming greenhouse gasses every year. This would make a mockery of NM's climate goals, and erase most of the climate progress we have made in the last two decades. This is more greenhouse gas pollution than New Mexico's three largest cities combined – Albuquerque, Las Cruces, and Santa Fe. The earth is already warming by a considerable amount, already the temperature is bleaching organization. Exercise caution prior to clicking on links or opening attachments. We need to deny their air permit and also remove Jupiter project as a whole. This will destroy our environment and accelerate climate change. To stop killing our planet, the project has to be gone if we want a sustainable earth.

[EXTERNAL] Please I	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I'm concerned about the impact of Project Jupiter and all data centers on New Mexico's lands and waters and people. Every day I watch as NM struggles through this awful drought, one that is likely to continue in the face of climate change. Data centers will need to be built, but they need to be put in the right places where the resources are available. I don't believe NM is that place without significant changes to data center plans, particularly water use. Plants I never have had to water before are dying in my yard due to drought. The wind is dessicating our forests. I've seen wildlife in my yard that I've never seen before, looking for water I believe. Please take climate change seriously! I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application:	Carole Wendler	kwautomail@phone2action.(	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

[EXTERNAL] Please	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising temperatures, prolonged and severe droughts,	DAVE GARDNER	kwautomail@phone2action. Name: Lara Bittencourt Address: City: Florianópolis State: N/A Email: amordoce.docete333@gmail.com Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application Dear NMED staff, My name is Lara, and while I live in Florianópolis, Brazil, I am deeply concerned about the environmental and social impacts of Project Jupiter, proposed by Yucca Growth Infrastructure, LLC in Doña Ana County, New Mexico. I understand that the company, formerly known as Acoma LLC, initially sought to build two gas-fired power plants. After receiving over 7,000 public comments in opposition, it shifted its								
[EXTERNAL] Yucca G	strategy and now proposes a fuel cell technology	noreply@smartcor	noreply@smartcomment.co	SMTP	amordoce.docete333@gmail.com	amordoce.docete333@gmail.c	SMTP	Normal	Normal
	organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Do not destroy what is left of NM clean air. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands. NMED must enforce the state's climate goals: New Mexico's Climate Action Plan states "New Mexicans recognize the threats posed by rising

Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I emplore NMED to do its job to protect the people and air quality of the state of New Mexico by DENYING an Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes

Yucca Growth Infrastructure, LLC-YGI Microgrid Air Quality Construction Permit Application

I am a resident of Ohio and I am asking that you deny Yucca Growth Infrastructure's air quality permit. I live here with many generations of my family and this is our home. I want to continue living here knowing that we have a safe and secure future. That future is under threat with this proposed air quality permit. A change to fuel cells has minimal impacts on the suffering we will endure as a result of the gas plant's air pollution.

[EXTERNAL] My Pub	often get email from lblaswell@gmail.com. Learn why this is important <https://aka.ms/LearnAboutSenderIdentification> CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. Dear Air Quality Bureau, NMED, I urge the NMED to deny Air Quality Construction Permit Application 10883 for the Yucca Growth Infrastructure (YGI) Microgrid in southern Doña Ana County. Granting a permit to emit over 10 million metric tons of CO2 annually violates NMED's mission to protect public health and prevent air quality deterioration, disproportionately harming BIPOC and low-income communities. The application relies on an unproven, unregulatable, and inadequately tested design: * Unprecedented, Unproven Scale: YGI proposes using 2,275 Bloom Energy Solid Oxide Fuel Cells (SOFC). Though several projects have been announced with much fanfare, the largest	Linda Laswell	lblaswell@gmail.com	SMTP	aqb-yucca-microgrid	/o=ExchangeLabs/ou=Exchange	EX	Normal	Normal

FW: [EXTERNAL] DE	From: Kevin Sanchez <noreply@adv.actionnetwork.org> Sent: Sunday, July 5, 2026 10:37 PM To: Romero, Rhonda, ENV <Rhonda.Romero@env.nm.gov> Subject: [EXTERNAL] DENY YGI: Protect New Mexico's Air Quality Through Renewable Energy Solutions CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments. NMED Reviewer Rhonda Romero, Dear NMED Staff, My name is Kevin Sanchez, and I live in Santa Fe, New Mexico. I respectfully urge the New Mexico Environment Department to deny Yucca Growth organization. Exercise caution prior to clicking on links or opening attachments. Dear NMED Air Quality Project Jupiter Yucca, Please schedule a PUBLIC HEARING on Project Jupiter's permit application. New Mexicans have the right to express their demands to protect their environment and to protect their health. THE PERMIT MUST BE DENIED. I urge the Environment Department to hold a public hearing on the Project Jupiter air-quality permit application and to deny the current application. NMED must hold a public hearing on the application: NMED regulations require holding a public hearing on an air-pollution permit application if "there is significant public interest." Such a hearing is essential here, given that the proposed power plant would be the largest source of CO2 pollution in the state and could significantly impact everyone living in the borderlands.
