RECEIPT

I, JOHN KIELING
received 50 signatures on petitions requesting a **Physical Information Repository for the LANL Hazardous Waste Permit documents**, collected by Las Mujeres Hablan.

Date: May 5, 2010.

Signature: 

Representing: New Mexico Environment Department

Las Mujeres Hablan, c/o Honor Our Pueblo Existence (HOPE), Rt. 5 Box 474, Espanola, NM 87532 (505) 747-4652

There is a need for a Physical Information Repository for permit documents in the Española Valley, as:

* a place for individual, student and community learning and research about the ten-year permit for continued hazardous waste operations at LANL, the permitting process, how to get involved and make comments.

* an act of Restorative Justice and in order to meet the needs of both urban and rural communities and future generations,

Therefore, **NMED must require DOE/LANL to establish both a physical Information Repository in the Española Valley, as well as a virtual (electronic) Information Repository before the permit is finalized.**
