

 ENTERED

I, Sally Worthington,
received 18 signatures
on the petition for a
physical information
repository, from
Las Mujeres Hablan.

Sally Worthington 5/7/10

33561

We, the undersigned, state:

There is a need for a Physical Information Repository for permit documents in the Española Valley, as:

* a place for individual, student and community learning and research about the ten-year permit for continued hazardous waste operations at LANL, the permitting process, how to get involved and make comments.

* an act of Restorative Justice and in order to meet the needs of both urban and rural communities and future generations,

Therefore, **NMED must require DOE/LANL to establish both a physical Information Repository in the Española Valley, as well as a virtual (electronic) Information Repository before the permit is finalized.**
