PUBLIC NOTICE

Groundwater Discharge Permit Applications Submitted to the Department for Review

August 2, 2024

Dear Interested Party,

The New Mexico Environment Department (NMED) Ground Water Quality Bureau (GWQB) hereby provides notice pursuant to 20.6.2.3108 NMAC that the following Groundwater Discharge Permit applications have been submitted to NMED for review. Provided the applicant has met applicable requirements, NMED will propose for approval a Discharge Permit containing limitations, monitoring requirements, and other conditions intended to protect groundwater quality for present and potential future use.

NMED will accept comments and statements of interest regarding the application and will create a facility specific mailing list for persons who wish to receive future notices. NMED is developing a Public Involvement Plan (PIP) to provide public participation opportunities and information that may be needed for the community to participate in the permitting process. The PIP will be posted online at <https://www.env.nm.gov/public-notices/> and placed at the NMED field office nearest to the proposed permitted activity. To learn more about a Discharge Permit and the permitting process or to be placed on a facility-specific mailing list, please contact the NMED Permit Contact at the telephone number or email address provided or address correspondence to the GWQB, PO Box 5469, Santa Fe, NM 87502-5469.

In the future, NMED will publish a second public notice providing a draft permit and will seek public comment on the draft. You will be able to add the comment period to your calendar simply through our Events Calendar located at <https://www.env.nm.gov/events-calendar/>.

If you are a non-English speaker, do not speak English well, or if you have a disability, you may contact the NMED Permit Contact to request assistance, an interpreter, or an auxiliary aid in order to learn more about a Discharge Permit or the permitting process, or to participate in activities associated with the permitting process. To the extent possible, NMED will arrange for requested interpretation services and accommodations or services for persons with disabilities. Telephone conversation assistance is available through Relay New Mexico at no charge for people who are deaf, hard of hearing, or have difficulty speaking on the phone, by calling 1-800-659-1779; TTY users: 1-800-659-8331; Spanish: 1-800-327-1857. Telephone interpretation assistance for persons that are a non-English speaker or do not speak English well is available at no charge when calling NMED.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is

responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Parts 5 and 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kate Cardenas, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@env.nm.gov. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/general/environmental-justice-in-new-mexico/> to learn how and where to file a complaint of discrimination.

Enclosure: Groundwater Discharge Permit Applications Submitted for Review

Discharge Permit: DP-1887, Albuquerque Bernalillo County Water Utility Authority (ABCWUA) Large-Scale Recharge Project

- County: Bernalillo | Closest City: Albuquerque
- Applicant: Albuquerque Bernalillo County Water Utility Authority, Danielle Shuryn, Compliance Division Manager, P.O. Box 568, Albuquerque, NM 87103
- NMED Permit Contact: Jennifer Fullam, Reuse Team Lead, Jennifer.Fullam@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-670-2496 or 505-827-2900.

Notice: DP-1887, ABCWUA Large-Scale Recharge Project: Albuquerque Bernalillo County Water Utility Authority proposes to renew and modify the Discharge Permit for the discharge of up to 7.1 million gallons per day of treated surface water to a Class V Underground Injection Control (UIC) well as part of an aquifer storage and recovery project. Potential contaminants from this type of discharge include organic and inorganic compounds. The facility is located at 6000 Alexander Blvd. NE, Albuquerque, in Section 34, Township 11 North, Range 3 East, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately 128 to 1,200 feet and had a pre-discharge total dissolved solids concentration of 309 to 1,040 milligrams per liter.

Discharge Permit: DP-1041, Gandy-Marey, Inc.

- County: Chaves | Closest City: Roswell
- Applicant: Gandy-Marley, Inc., Larry Gandy, Vice President, P.O. Box 1658, Roswell, NM 88202
- NMED Permit Contact: Avery Young, Domestic Waste Team Lead, Avery.Young@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-699-8564 or 505-827-2900.

Notice: DP-1041, Gandy-Marley, Inc. proposes to renew and modify the Discharge Permit for the discharge of up to 600,000 gallons per year of domestic septage, 600,000 gallons per year of wastewater treatment plant sludge, 3,000,000 gallons per year of grease trap waste/interceptor waste, 60,000 gallons per year of vehicle equipment grit trap waste and up to 10,000 cubic yards per month of hydrocarbon contaminated soil to a disposal area. Potential contaminants from this type of discharge include nitrogen compounds, metals, and organic compounds. The facility is located at approximately 40 miles east of Roswell off New Mexico Highway 380, one mile South of Waldrop Highway Park, in Sections 8 and 9, Township 11 South, Range 31 East, Chaves County. Groundwater most likely to be affected is at a depth of approximately 122 feet and had a pre-discharge total dissolved solids concentration of 8,970 milligrams per liter.

Discharge Permit: DP-1978, Roswell Country Club

- County: Chaves | Closest City: Roswell
- Applicant: Roswell Country Club, Andrew Maloney, Superintendent, 2601 Urton Rd., Roswell, NM 88201
- NMED Permit Contact: Gerald Knutson, Water Resource Professional, Gerald.Knutson@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-7189 or 505-827-2900.

Notice: DP-1978, Roswell Country Club has applied for a Discharge Permit for the discharge of up to 800,000 gallons per day of reclaimed domestic wastewater application to a golf course. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 2601 Urton Rd, approximately 3 miles northeast of Roswell, in Sections 22, 23, 26 and 27, Township 10 South, Range 24 East, Chaves County. Groundwater most likely to be affected is at a depth of approximately 20.5 feet and had a pre-discharge total dissolved solids concentration of 5,320 milligrams per liter.

Discharge Permit: DP-495, Vegetable Products, Inc.

- County: Doña Ana | Closest City: Hatch
- Applicant: Steve Franzoy, Owner, P.O. Box 122, Salem, NM 87941
- NMED Permit Contact: Samantha Carver, Agriculture Compliance Section Team Lead, (505) 490-5266 or (505) 827-2900, samantha.carver@env.nm.gov or acs.general@env.nm.gov.

Notice: DP-495, Vegetable Products, Inc. proposes to renew the Discharge Permit for the discharge of up to 40,740 gallons per day of wastewater from the production area of a chile processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 39037 Hwy 187, approximately 2.5 miles northwest of Hatch, in Section 6, Township 19 South, 03 West, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 8 feet and had a pre-discharge total dissolved solids concentration of 500 milligrams per liter.

Discharge Permit: DP-1281, West Mesa/Santa Teresa Wastewater Treatment Facility

- County: Doña Ana | Closest City: Santa Teresa
- Applicant: Camino Real Regional Utility Authority (CRRUA), Juan Carlos Crosby, Executive Director, P.O. Box 429, Sunland Park, NM 88063
- NMED Permit Contact: Gerald Knutson, Water Resource Professional, Gerald.Knutson@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-7189 or 505-827-2900

Notice: DP-1281, West Mesa/Santa Teresa Wastewater Treatment Facility: CRRUA proposes to renew the Discharge Permit for the discharge of up to 450,000 gallons per day of municipal wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 4770 Pete Domenici Highway, approximately 2.5 miles southwest of Santa Teresa, in Section 30, Township 28 South, Range 03 East, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 315 feet and had a pre-discharge total dissolved solids concentration of 500 to 1,000 milligrams per liter.

Discharge Permit: DP-375, Artesia Country Club

- County: Eddy | Closest City: Artesia
- Applicant: Artesia Country Club, Nathan Bowser, Superintendent, P.O. Box 1305, Artesia, NM 88210
- NMED Permit Contact: Kambray Townsend, Water Resource Professional, kambray.townsend@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-538-0497 or 505-827-2900.

Notice: DP-375, Artesia Country Club proposes to renew and modify the Discharge Permit for the discharge of up to 184,800 gallons per day. Of this, up to 180,000 gallons per day of reclaimed domestic wastewater is proposed to be stored in several holding ponds and applied to the golf course, and up to 4,800 gallons per day of domestic wastewater from the facility is discharged to two septic tank leachfield systems. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 2701 W. Richey Avenue, approximately 2.8 miles northwest of Artesia, in Section 12, Township 17 South, Range 25 East, Eddy County. Groundwater most likely to be affected is at a depth of approximately 165 feet and had a pre-discharge total dissolved solids concentration of 400 milligrams per liter.

Discharge Permit: DP-1877, Bonito Valley Brewing Company

- County: Lincoln | Closest City: Lincoln
- Applicant: Melissa Boutte, Business Manager, P.O. Box 81, Lincoln, NM 88338
- NMED Permit Contact: Melanie Sandoval, Geoscientist – Supervisor, UIC and Industrial Team Leader, Melanie.Sandoval2@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-7892 or 505-827-2900.

Notice: DP-1877, Bonito Valley Brewing Company proposes to renew the Discharge Permit for the discharge of up to 350 gallons per day of commercial processing and domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 692 Calle la Placita, Lincoln, in Section 29, Township 9 South, Range 16 East, Lincoln County. Groundwater most likely to be affected is at a depth of approximately 110 feet and had a pre-discharge total dissolved solids concentration of 733 milligrams per liter.

Discharge Permit: DP-814, Los Alamos County Wastewater Treatment Facility

- County: Los Alamos | Closest City: Los Alamos
- Applicant: Los Alamos County Department of Public Utilities, Jennifer Baca, Engineering Associate, 1000 Central Avenue, Suite 130, Los Alamos, NM 87544
- NMED Permit Contact: Gerald Knutson, Water Resources Professional, Gerald.Knutson@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-7189 or 505-827-2900.

Notice: DP-814, Los Alamos County Wastewater Treatment Facility: Los Alamos County Department of Public Utilities proposes to renew the Discharge Permit for the discharge of up to 1.4 million gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 3500 Pueblo Canyon Road, in Los Alamos, in Sections 2, 3, 4, 5, 8, 9, 10, 11, 13, 14, 15, 16, and 17, Township 19 North, Range 06 East, Los Alamos County. Groundwater most likely to be affected is at a depth of approximately 59 feet and had a pre-discharge total dissolved solids concentration of 692 milligrams per liter.

Discharge Permit: DP-1757, Alamogordo Public Schools

- County: Otero | Closest City: Alamogordo
- Applicant: Alamogordo Public Schools, Judy Campbell, Construction and Maintenance Financial Specialist, P.O. Box 650, Alamogordo, NM 88310
- NMED Permit Contact: Andrew Romero, Water Resource Professional, AndrewC.Romero@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-8624 or 505-827-2900.

Notice: DP-1757, Alamogordo Public Schools proposes to renew the Discharge Permit for the discharge of up to 500,000 gallons per day of reclaimed domestic wastewater to athletic fields. Potential contaminants from this type of discharge include nitrogen compounds. The facility and the discharge locations are located at McDowell Athletic Field on College Ave. and 15th St.; Alamogordo High School on Alaska Ave. And 1st St; Steinhoff Yucca Soccer Complex on Playa Azul and Santa Cruz Dr.; and Mountain View Middle School and Grady Fields at Playa Azul and Santa Cruz Drive, within Alamogordo, in Sections 17, 20 and 29, Township 16 South, Range 10 East, Otero County. Groundwater most likely to be affected is at a depth of approximately 150-200 feet and had a pre-discharge total dissolved solids concentration of 2,400 milligrams per liter.

Discharge Permit: DP-1740, Black Mesa Winery

- County: Rio Arriba | Closest City: Velarde
- Applicant: Jerry Burd, Owner, PO Box 308 Velarde, NM 87582
- NMED Permit Contact: Amanda Otieno, Water Resource Professional, Amanda.Otieno@env.nm.gov or acs.general@env.nm.gov, Telephone: 505-819-1219 or 505-827-2900.

Notice: DP-1740, Black Mesa Winery: Jerry Burd proposes to renew and modify the Discharge Permit for the discharge of up to 200 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 1502 Highway 68 Velarde, in Section 34, Township 23 North, Range 9 East, Rio Arriba County. Groundwater most likely to be affected is at a depth of approximately 17 feet and had a pre-discharge total dissolved solids concentration of 338 milligrams per liter.

Discharge Permit: DP-1287, Mathews Dairy

- County: Roosevelt | Closest City: Portales
- Applicant: Jordan Mathews, 2325 S. RR2, Portales, NM 88101
- NMED Permit Contact: Keelyn Taylor, Water Resources Professional, KeelynL.Taylor@env.nm.gov or acs.general@env.nm.gov, Telephone: 505-469-4764 or 505-827-2900.

Notice: DP-1287, Mathews Dairy: Jordan Mathews proposes to renew and modify the Discharge Permit for the discharge of up to 15,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 2325 S. RR2, Portales, approximately 9 miles northwest of Portales in Section 13, Township 1 South, Range 33 East, Roosevelt. Groundwater most likely to be affected is at a depth of approximately 68 feet and had a pre-discharge total dissolved solids concentration of 330 milligrams per liter.

Discharge Permit: DP-1784, New Mexico Highlands University

- County: San Miguel | Closest City: Las Vegas
- Applicant: New Mexico Highlands University, Sylvia Gallegos, PO Box 9000, Las Vegas, NM 87701
- NMED Permit Contact: Andrew Romero, Water Resource Professional, AndrewC.Romero@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-660-8624 or 505-827-2900.

Notice: DP-1784, New Mexico Highlands University proposes to renew the Discharge Permit for the discharge of up to 35,000 gallons per day of reclaimed domestic wastewater to landscaped areas and athletic fields. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 800 West National Avenue, in Las Vegas, in projected Sections 22 and 23, Township 16 North, Range 16 East, San Miguel County. Groundwater most likely to be affected is at a depth of approximately 7 feet and had a pre-discharge total dissolved solids concentration of 1,400 to 6,200 milligrams per liter.

Discharge Permit: DP-1532, Oshara Village Water Reclamation Facility

- County: Santa Fe | Closest City: Santa Fe
- Applicant: Oshara Mutual Domestic Wastewater Association, Robert Larragoite, Property Manager Westgate Properties, 508 West Cordova Road, Santa Fe, NM 87505
- NMED Permit Contact: Jennifer Fullam, Reuse Team Lead, Jennifer.Fullam@env.nm.gov or pps.general@env.nm.gov, Telephone: 505-670-2496 or 505-827-2900.

Notice: DP-1532, Oshara Village Water Reclamation Facility: Oshara Mutual Domestic Wastewater Association proposes to renew the Discharge Permit for the treatment and discharge of up to 45,000 gallons per day of reclaimed domestic wastewater to a reuse landscaping area. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 2 Willow Back Road, approximately 6 miles southwest of Santa Fe, in Section 16, Township 16 North, Range 09 East, Santa Fe County. Groundwater most likely to be affected is at a depth of approximately 200 feet and had a pre-discharge total dissolved solids concentration of 120 milligrams per liter.
