**Subject:** In support of maintaining the open burn permit at LANL

Mr. John E. Kieling  
Program Manager, NMED Hazardous Waste Bureau  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505

February 26, 2010

Dear Mr. Kieling,

I am an employee of Los Alamos National Security, LLC, and work at the Los Alamos National Laboratory. I am writing as a private citizen and the views herein are my own.

I am in favor of keeping the open burn permit at Los Alamos National Laboratory.

Existence of the open burn ground facilities allow us to provide critical, cost effective, and timely support to the nation in reducing injuries to our servicemen through understanding of the homemade explosives encountered.

Existence of the open burn ground facilities also allows us to provide critical and cost effective support the war on terror.

Please reconsider the intent to deny the open burn permit at Los Alamos. Thank you for your time and consideration in this matter.

Sincerely,  
Janine L. Fales  
115 Alhambra Drive  
Los Alamos, NM 87544
