**Subject:** open air burning by LANL.....

dear mr. kieling,

as a resident of santa fe since 1982, i strongly oppose the open air burning of hazardous waste by LANL.

there are other ways to dispose of this waste that will not affect our lungs and the groundwaters.

we should have learned by now of the risks of contamination by air and by water to the population.

Over the past 10 years, serious deficiencies in the DOE/LANL emergency planning and response division have been found by several government auditing agencies, including the DOE inspector general, the Government

accountability office, and the defense nuclear facility safety board. the reports described serious problems with

the LANL fire protection BEFORE the cerro grande fire of 2000.

how many more wake-up calls do we need?

please keep LANL from endangering more of the inhabitants of New Mexico.

thank you.

Life is short.  
Break the rules,  
forgive quickly,  
kiss slowly,  
love truly,  
laugh uncontrollably,  
and never regret anything  
that made you smile.

Life may not be the party we hoped for,  
but while we are here we should dance.

"Forget safety.  
Live where you fear to live.  
Destroy your reputation.  
Be notorious."
